Development**

**John R. Kasich**, Governor

**James A. Leftwich**, Director

May 25, 2011

Dear Governor John Kasich, President Thomas Niehaus, and Speaker William Batchelder:

On behalf of the members of the Ohio Tax Credit Authority, I am pleased to present the Job Creation Tax Credit Program Annual Report for calendar year 2009. Under the Ohio Revised Code Section 122.17, the Ohio Department of Development's Strategic Business Investment Division prepares this annual report containing the following: (1) various data analyses conducted of tax credit activity since the program's inception in 1993; (2) a listing and description of all tax credit agreements entered into during 2009; (3) a listing and description of all tax credit projects approved by the Tax Credit Authority in calendar year 2009; and (4) a report detailing the status of all project who have entered into a fully executed agreement.

The Tax Credit Authority operates as a statutorily created board and is comprised of five members appointed by the Governor, President of the Ohio Senate, and Speaker of the Ohio House of Representatives. With the help of Ohio Department of Development professional staff, the board reviews and makes determinations on applications for Job Creation Tax Credit Program assistance submitted by companies proposing to create net, new full-time jobs in the State. Once a project is determined eligible for tax credits, the Tax Credit Authority may award benefit levels contingent upon the scope of a proposed project. Participating companies generally can receive refundable tax credits of up to 75 percent of Ohio income taxes withheld from eligible new full-time employees for a term of up to fifteen years.

As evidenced by this report, the Job Creation Tax Credit Program has distributed refundable tax credit assistance to a substantial number of business expansion and new location projects in Ohio. As of year-end 2009, fully 2,059 economic development projects received approval for tax credit assistance, of which 638 projects remained active. In 2009, the Tax Credit Authority approved 121 projects obtaining commitments from companies to create a total of 11,438 new jobs and retain 32,062.

When House Bill 1 passed the Job Creation Tax Credit and Job Retention Tax Credit Programs under went significant changes to the way the program will be administered. All new projects approved after October 17, 2009 fall under the new payroll centric standards. These new standards have further increased Ohio's competitiveness in order to attract and retain businesses.

In addition to its unique refundable nature, the Job Creation Tax Credit Program is significant for its ability to protect the State's investment in business start-up and expansion activities. Given that it is a performance-based program, projects are often removed from active status and rendered ineligible for Job Creation Tax Credit assistance if they fail to materialize or comply with programmatic guidelines.

The data and analyses contained in this report illustrate the substantial impact of the Job Creation Tax Credit Program on spurring job growth in the State during 2009 and helping Ohio to continue to remain a national leader in the total number of new business expansions and locations. As you review the details of the report, I believe the true economic impact of the program and its reach across the State will become even more evident.

Thank you for the opportunity to share the accomplishments of the Job Creation Tax Credit Program.

Sincerely,

James A. Leftwich  
Director

## Forward

---

The Director is pleased to present the 2009 Job Creation Tax Credit Annual Report. The Job Creation Tax Credit Program serves as one of the state's flagship economic development programs for the Ohio Department of Development for the creation of jobs in the state. In 2009 the Tax Credit Authority and the Ohio Department of Development accomplished the following in the goal of retaining and attracting jobs to the State of Ohio:

1. The passage of House Bill 1 contained a section which reformed the Job Creation Tax Credit Program. Effective October 16, 2009, the Job Creation Tax Credit incorporated the following changes:
  - The tax credit is now considered and calculated on aggregate payroll withholding from full time equivalent employees;
  - The post term reporting period has been reduced; and
  - The annual progress reporting requirements have been simplified.
2. The calendar year of 2009 included an uptick in projects approved from the previous calendar year:
  - The number of projects approved by the Tax Credit Authority has increased to 121 projects approved in 2009.
  - The number of retained jobs committed to for projects also increased to 32,062 jobs in 2009.
  - The average wage of approved for 2009 projects was \$22.14 per hour.
3. After a project is approved by the Tax Credit Authority the staff at the Ohio Department of Development oversees the administration of the Job Creation Tax Credit.
  - In 2009, 116 taxpayers executed tax credit agreements, included commitments to create at least 13,139 new full time jobs and invest \$1.92 billion in various project locations in Ohio.
  - Also in 2009 the Tax Credit Authority issued 355 tax credit certificates in the amount of \$65.7 million to taxpayer participants of the program.
4. Tax incentives are an important component of the economic development toolbox to encourage investment and job creation by reducing a company's tax liability. The Tax Credit Authority staff monitors every project to ensure compliance in order to leverage the program most effectively.
  - 80 projects had their benefits modified in 2009 by the Tax Credit Authority due to a failure to comply with the specified commitment laid out in the agreements.
  - Four companies in 2009 were ordered to payback all or a portion of the issued tax credits because they ceased operations at the project site.
  - The Tax Credit Authority took non-compliance action on 182 projects overall in 2009.
5. The Tax Credit Authority has witnessed a surge in the volume of new projects seeking approval. As of June 2010, the Tax Credit Authority has
  - Approved 108 projects;
  - Received project commitments of 8,148 new jobs and 15,449 retained jobs; and
  - Received a committed fixed asset investment of \$1.1 billion.

# Section A: Time Series Analysis of Ohio Job Creation Tax Credit Program Activity Calendar Years 1993 to 2009

**Table 1: Aggregate Summary of Commitments by Calendar Year, 1993 – 2009<sup>1</sup>**

Calendar Year	Projects	New Jobs	Retained Jobs	Total Fixed-Asset Investment Committed (unadjusted)	Total Fixed-Asset Investment Committed (1993 dollars)	Total Fixed-Asset Investment Committed (2008 dollars)	Weighted Average Wage Rate Committed (unadjusted)	Weighted Average Wage Rate Committed (1993 Dollars)	Weighted Average Wage Rate Committed (2008 Dollars)	Average Tax Credit Rate	Average Credit Term
1993	87	11,136	15,125	\$913,466,914	\$913,466,914	\$1,342,887,710	\$12.16	\$12.16	\$17.88	61.84	8.9

2009	121	11,438	32,062	\$964,071,467	\$651,076,025	\$967,513,202	\$22.14	\$14.95	\$22.22	48.73	6.6

<sup>1</sup> Historical data may differ from that previously reported by the Ohio Department of Development in earlier program summary reports. Data contained in this report represent what staff believes to be the most accurate data currently available. Staff believes nominal discrepancies with prior reports in the numbers of approved projects and their respective commitments are the result of the switch in database software during the lifespan of the tax credit.

The Job Creation Tax Credit Program stands as one of the State's flagship economic development tools. The volume of program activity is best measured both by the number of projects approved (2,059 through December 2009) as well as the value of annual tax credits issued by the Tax Credit Authority to eligible taxpayers (approximately \$63.8 million in refundable tax credits issued in 2009 alone – see Table 4 for additional details).

As the Job Creation Tax Credit Program completed its 17th year in 2009, analyses contained in this section provide detailed activity and performance data recorded during the program's lifespan to date.

Measured by the number of projects approved during any single calendar year period, data appearing in Table 1 indicate that 1995 had the most projects approved of any calendar year the program. As far as fixed-asset investment commitments are concerned, calendar year 2004 appears to be the Job Creation Tax Credit Program's largest aggregate fixed-asset investment commitment for any calendar year (using 2008 adjusted dollar figures). The largest total of new job creation commitments was obtained by the Tax Credit Authority during calendar year 1997.

In 2009, the Tax Credit Authority approved 121 projects for assistance (representing an eight percent increase from calendar year 2008), receiving commitments to create a total of 11,438 new full-time jobs (representing an eight percent decrease). Furthermore, \$964 million in total fixed-asset investment commitments were made in 2009. This decrease may be attributed to consolidations from decreasing sales and the need to lower overall operating and labor cost<sup>2</sup>.

Total number of committed retained jobs increased by 52 percent. In fact, job retention commitments in calendar year 2009 placed among the top-tier levels recorded since the Job Creation Tax Credit Program's inception. This may be another reflection of efforts to consolidate operations, as employers bolster certain sites in order to accommodate production lost at other sites.

In real dollars, the adjusted average wage rate commitment secured in 2009 was \$4.18/hour higher than the average hourly wage committed in 2009. This was due a higher number of approved projects committing to create jobs in paying fields (approximately \$22.22 average per hour wage – see Figure 8 for additional details).

The decreased number of new jobs and increased average wage rate commitments secured during calendar year 2009 arguably were a function of the general economic contractions witnessed at the state, national, and international levels since the start of the 2007 recession. As a result of the recession companies are seeking to consolidate operations. Ohio has been the beneficiary of many of these projects. The economic contractions have affected the whole country, but Ohio has led the nation for each of the past four years for business expansion and capital investment.

Data contained in Table 1 are presented graphically in Figures 1 through 7 on the following pages

<sup>2</sup> Information is from the 24th Annual Area Development Magazine Corporate Survey taken in 2009.

Figure 1: Number of Projects Approved by Calendar Year, 1993 – 2009

Figure 3: Total New Jobs Committed by Calendar Year, 1993 – 2009

Figure 4: Total Hourly Wage Rate Commitment by Calendar Year, 1993 – 2009 *unadjusted*

Figure 5: Total Jobs Retained by Calendar Year, 1993 – 2009

Figure 6: Total Weighted Average Wage Rate Commitment by Calendar Year, 1993 – 2009  
*adjusted to 1993 & 2008 dollars*

**Figure 7: Total Fixed-Asset Investment Commitments by Calendar Year, 1993 – 2009**  
*adjusted to 1993 & 2008 dollars*

Information appearing in Figure 8, denotes the distribution of projects approved for tax credits in calendar year 2009 according to region in which the project is located. Region 1 (Central Ohio region) and region 4 (Miami Valley region) tied with the most projects approved in 2009. Region 5 (Cincinnati Metropolitan region) was shortly behind in third at 17 percent. While most regions saw a decrease or consistent proportion of approved project region 4 (The Miami Valley region) nearly doubled.

Figure 8: Projects Approved in Calendar Year 2009 by Region as compared to Calendar Year 2000-2008 Averages

Information appearing in Figure 9, denotes the distribution of projects approved for tax credits in calendar year 2009 according to industry segment, using the North American Industry Classification System (NAICS).<sup>3</sup> The largest industry segment represented during calendar year 2009 was manufacturing, with 53 percent of projects approved for tax credit assistance. Other large industry segments represented by projects approved for tax credits in calendar year 2009 included professional scientific & technical services (14 percent); administrative & support services (13 percent); and logistics and distribution (10 percent).

**Figure 9: NAICS Classification Distribution of Projects Approved in Calendar Year 2009**

	2009		2008 <sup>4</sup>	
	Projects	Percent	Projects	Percent
Manufacturing	63	53%	60	53%
Professional, Scientific, and Technical Services	17	14%	11	9%
Administrative, Support Services	16	13%	11	9%
Logistic and Distribution	12	10%	10	8%
Information Technology	7	6%	13	12%
Finance, Insurance	3	2%	4	3%
Other Services	3	2%	5	4%

<sup>3</sup> For more information regarding NAICS, see link at <http://www.census.gov/eos/www/naics/>.

<sup>4</sup> These are estimates based off 2008 project data

Information in Figure 10, on the following page, depicts the distribution of NAICS sub-categories within the manufacturing classification. The largest segments within the manufacturing classification are prepared foods (16 percent), alternative energy (13 percent), health and beauty (10 percent), and metal and plastics (eight percent each). The smallest manufacturing sub-categories represented by tax credit projects were clothing, children’s toys, automotive, furniture, and paper.

**Figure 10: NAICS Classification – Manufacturing Sub-categories – Distribution of Projects Approved in Calendar Year 2009**

	2009		2008	
	Projects	Percent	Projects	Percent
Prepared Foods	10	16%	3	5%
Alternative Energy	8	13%	0	0%
Health and Beauty	6	10%	0	0%
Metal	5	8%	12	21%
Plastics	5	8%	5	8%
Aircraft	4	6%	1	2%
Machinery	4	6%	10	16%
Building Products	4	6%	0	0%
Electronic	3	5%	10	16%
Printing	3	5%	2	3%
Medical	3	5%	3	5%
Lawn Products	2	3%	0	0%
Furniture	1	2%	1	2%

Paper	1	2%	2	3%
Transportation	1	2%	0	0%
Clothing	1	2%	0	0%
Children’s Toys	1	2%	0	0%
Chemicals	0	0%	7	11%

**Table 2: Average Number of New Jobs Committed by Calendar Year, 1993 – 2009**

<b>Calendar Year</b>	<b>Average Number of New Jobs Per Project</b>
1993	128.0
1994	112.8
1995	115.3
1996	73.1
1997	130.0
1998	89.5
1999	100.6
2000	103.6
2001	107.8
2002	100.0
2003	100.7
2004	99.2
2005	88.5
2006	104.3
2007	120.5
2008	109.9
2009	93.8

As noted above, the total number of new jobs committed in calendar year 2009 was down in comparison to previous years, this may reflect company efforts to consolidate and reduce employment overall. Specifically, job creation commitments in calendar year 2009 – 93.8 jobs per project – ranked in the bottom quartile of the average number of new jobs per project from 1993-2009.

The Tax Credit Authority convenes monthly to review complete applications. The Tax Credit Authority renders final determinations of proposed and existing Job Creation Tax Credit projects. The monthly meeting agenda, including the taxpayer’s name and proposed project location, is made public prior to the meeting. Note the Tax Credit Authority does not convene a monthly meeting in November given the Thanksgiving holiday; an early December meeting is held annually instead.

Figure 11, appearing below, illustrate the monthly average of projects approved by the Tax Credit Authority each month. Specifically, the graph shows the number of approved projects in calendar year 2009 – across months – with the average number of projects approved each month during the previous fifteen-year period.

The Tax Credit Authority experienced a markedly higher volume of approval activity in June 2009. Similarly, higher activity was reported in July, January, and March as compared with previous year’s averages.

**Figure 11: Comparison of Projects Approved by Month in Calendar Year 2009 with Average Numbers Approved Across Calendar Year 1993 – 2008**

The Job Creation Tax Credit Program is marked by a volume of activity including preparing projects for consideration of Tax Credit Authority, executing tax credit agreements, monitoring annual progress reports, and the issuance of tax credit certificates. It follows, therefore, the program will experience a level of attrition throughout each year as projects go off-line, taxpayers fail to initiate projects, or the Tax Credit Authority chooses to remove taxpayers from participation.

If a taxpayer has failed to create enough jobs to remain eligible for the program, staff will recommend the taxpayer be removed from the tax credit program. In the alternative, a taxpayer may wish to not participate any further in the tax credit program.<sup>5</sup>

Table 3, on the following page, depicts the current status of projects according to their respective year of approval. Given the relative age of the Job Creation Tax Credit Program – seventeen years – and the length of tax credit terms (originally limited to ten years, the program later was changed to allow terms as long as fifteen years), it is no surprise that projects originally approved in the 1990s now have been closed out of the program on the basis of successful completion, cancellation, or termination. Indeed, one will find only eight projects approved in 1997 remaining active under the program. Approximately 21 percent of projects approved in the period 1993 to 2009 have been canceled by the Tax Credit Authority, meaning they never received a contract. Further, of the 2,059 projects approved by the Tax Credit Authority through December 2009, another 504 (or 25 percent) were terminated from the program.

<sup>5</sup> Tax credit projects having fully executed agreements – and being removed from the program for whatever reason, irrespective whether the Tax Credit Authority or the taxpayer initiates the action – are terminated. Conversely, tax credit projects lacking executed agreements – again, irrespective of the basis for their removal – are canceled. This approach is different from that having been taken in earlier periods by Tax Credit Authority staff. Namely, in earlier periods of the program, when taxpayers sought to remove their projects from the program, actions were deemed “cancellations” regardless whether an executed agreement existed.

**Table 3: Status of Projects by Calendar Year of Approval, 1993 – 2009<sup>6</sup>**

Calendar Year	Total	Active	Percent Active	Reporting	Percent Reporting	Completed	Percent Completed	Percent	Canceled	Percent Canceled	Terminated Without Clawback	Percent Terminated Without Clawback	Terminated With Clawback	Percent Terminated With Clawback

<sup>6</sup> Historical data may differ from that previously reported by the Ohio Department of Development in earlier program summary reports. Data contained in this report represent what staff believes to be the most accurate data currently available. Staff believes nominal discrepancies with prior reports in the numbers of approved projects and their respective commitments are the result of the switch in database software during the lifespan of the tax credit.

Information appearing in Table 3 is graphically represented in Figure 9.

The level of attrition from the program is strong evidence of the importance assigned by the Tax Credit Authority to its oversight function. The performance of each project is monitored on an annual basis by Tax Credit Authority staff to ensure compliance. Those failing to obtain their respective employment and investment commitment levels are subject to removal from the program. As it continually evaluates the performance of taxpayers participating in the Job Creation Tax Credit Program, the Tax Credit Authority aims to ensure the State's resources are being directed to those worthwhile projects and taxpayers.

**Figure 12: Status of Projects by Calendar Year of Approval, 1993 – 2009**

The Job Creation Tax Credit Program statute mandates participating taxpayers to annually report to the Department of Development information including the number of new employees and their respective income tax withholdings for the year. Complete annual reports must be submitted on March 1 each year; the Tax Credit Authority's audit staff records and reviews the data provided.

The tax credit is structured as a performance-based program, meaning that tax credit certificates are issued so long as a participating taxpayer satisfies its commitment to create jobs and otherwise remains in good standing (i.e., remains at the project site, and remains in compliance with all other terms of its tax credit agreement).

An analysis of certificates issued during calendar year 2009 revealed a substantial decrease in both the number of certificates issued as well as the total value of such certificates issued from the previous years.<sup>7</sup> Table 4 depicts an analysis of tax credit certificates issued from calendar year 2002 through calendar year 2009.

<sup>7</sup> Note: data include a limited number of Job Retention Tax Credit Program certificates. At the time that staff conducted this data analysis, it was difficult within the Ohio Department of Development's tracking software to bifurcate by tax credit program the certificates issued by Tax Credit Authority staff. This limitation has been corrected for future reporting purposes through consultation with the Department of Development's information technology professionals.

**Table 4: Tax Credit Certificates Issued Calendar Year 1995 through 2009, by Year Certificate Issued<sup>8</sup>**

Calendar Year in which Certificate Issued	Number of Certificates	Total Withholdings (Unadjusted)	Total Value of Issued Certificates (Unadjusted)	Total Withholdings (2008 Dollars)	Total Value of Issued Certificates (2008 Dollars)	Average Certificate Value (Unadjusted)	Median Certificate Value (Unadjusted)
1995	13	\$738,287	\$502,738	\$1,043,105	\$710,304	\$ 38,672	\$9,491

2003	352	\$60,171,208	\$43,820,080	\$70,422,146	\$51,285,394	\$124,489	\$42,323
2004	393	\$83,353,096	\$71,854,294	\$95,009,732	\$81,902,863	\$182,835	\$49,045
2005	318	\$69,067,059	\$58,255,673	\$76,142,520	\$64,223,580	\$183,194	\$51,683
2006	378	\$76,388,278	\$67,394,915	\$81,581,961	\$71,977,134	\$178,293	\$55,175
2007	404	\$115,501,497	\$79,960,685	\$119,935,908	\$83,030,590	\$197,922	\$58,981
2008	551	\$131,827,534	\$89,751,636	\$ 131,827,534	\$89,751,636	\$162,889	\$54,978
2009	356	\$98,570,757	\$65,770,521	\$98,921,558	\$66,004,590	\$184,749	\$51,852

The total number and aggregate dollar amount of certificates issued in a year are dependent on the number of properly filed annual reports. Annual report deficiencies and adjustments to project scopes may prohibit a certificate from being issued in the calendar year in which its report is submitted.

<sup>8</sup> Historical data may differ from that previously reported by the Ohio Department of Development in earlier annual reports. Data contained in this report represent what staff believes to be the most accurate data currently available. In addition the withholdings are likely to be higher from 1993- 2006 due to the database transition in 2006. Staff believes nominal discrepancies with prior reports in the numbers of approved projects and their respective commitments are the result of the switch in database software during the lifespan of the tax credit.

**Table 5: State Benefit 1995-2009 (Unadjusted and 2008 Dollars)**

Calendar Year	State Benefit (Unadjusted)	State Benefit (2008 Dollars)
1995	\$ 235,549	\$ 332,800

2008	\$ 42,075,898	\$ 42,075,898
2009	\$ 32,800,236	\$ 32,916,968
<b>Total</b>	<b>\$209,652,795</b>	<b>\$ 229,684,157</b>

The intent of any economic development incentive is to drive economic growth through job creation. Economic growth can be measured in two ways, the number of jobs created and the increased income tax revenue. Section D of this report illustrates the new job creation, and Table 4 shows the new income tax revenue.

Since 2002 projects receiving Job Creation Tax Credit have contributed over \$200 million in additional state revenue for projects that were receiving benefit. In addition to the above stated benefits, the state receives all commercial activity tax and withholdings from projects in the reporting phase.

**Figure 14: Tax Credit Certificates Issued by Tax Credit Authority Staff, Calendar Year 1995 to 2009**

## **Section B: Projects Approved by the Ohio Tax Credit Authority during Calendar Year 2009**

---

The Tax Credit Authority and its staff within the Ohio Department of Development are responsible for reviewing applications for tax credit assistance, analyzing project viability, and setting and determining tax credit benefit levels. Care is taken in preparing projects for review given the long-term relationship to be forged between the Tax Credit Authority and participating taxpayers; tax credits are awarded on the conditions that taxpayers remain at its project location and report to the Department of Development for a period that could be up to thirty years.

After tax credit approval, taxpayers have three years after the date of initial operations to satisfy the job creation commitments approved by the Tax Credit Authority and reflected in the Job Creation Tax Credit.

This section provides the following information: (1) a list of those taxpayers whose projects were approved for tax credits by the Tax Credit Authority during calendar year 2009; and (2) a brief description of each project's respective scope-of-work for those projects approved during calendar year 2009.

Note: The data reflect only commitments made by taxpayers; the expected performance going forward. Actual performance is reported in later years following the execution of a tax credit contract between the Tax Credit Authority and each taxpayer.

Furthermore, projects approved after October 17, 2009 are subject to the provisions of House Bill 1 of the 128th General Assembly which reformed the Job Creation Tax Credit Program to a payroll based system as recommended in a recent economic development study.

Economic benefits to the State as a result of project approval activity in calendar year 2009 include the following:

- The Tax Credit Authority approved tax credits for 121 projects;
- Planned fixed-asset investments of approximately \$964 million in communities across the State;
- Commitments to create approximately 11,438 new full-time jobs within three years, as well as the retention of more than 32,062 existing full-time jobs.

The value of the tax credit is estimated at \$290,955 over the term, and the company would be required to maintain operations at the project site for 12 years. Clear Saleing is a software company that provides monitoring applications to companies engaged in online advertising. The project involves the expansion of their current facility as well as software investments. This approximately \$640,000 project was expected to create 60 positions and retain 14 jobs.

**Coating Excellence International, LLC** was awarded a 50 percent job creation tax credit for a six-year term as a result of the company's new location in West Chester Township (Butler County). The value of the tax credit is estimated at \$385,062 over the term, and the company would be required

to maintain operations at the project site for 12 years. Formed in 1997, Coating Excellence is a specialized flexible packaging company that produces products for a variety of consumer retail products. This more-than \$2 million project was expected to create 135 positions.

**Code Blue LLC** has been awarded a 65 percent job creation tax credit for a six-year term as a result of the company's expansion in the City of Springfield (Clark County). The value of the tax credit is estimated at \$1 million over the term, and the company would be required to maintain operations at the project site for nine years. Code Blue is the premier provider of third party claims administration services for property insurance claims. The company's innovative program offering was launched to handle end-to-end processing of a wide variety of property claims for commercial and residential losses. This \$2.25 million project is expected to create 225 jobs.

**Collectcorp Corp.** has been awarded a 35 percent job creation tax credit for a five-year term as a result of the company's new location in the City of Middleburg Heights (Cuyahoga County). The value of the tax credit is estimated at \$115,555 over the term, and the company would be required to maintain operations at the project site for 10 years. Collectcorp collects accounts receivable, primarily for large financial institutions and student loans for the U.S. Department of Education, as well as provides call center functions to some institutions. The project involves leasehold improvements as well as the acquisition of machinery and equipment. This \$325,000 project is expected to create 125 positions.

**Composite Technologies Co., LLC** has been awarded a 35 percent job creation tax credit for a six-year term as a result of the company's new location in the City of Dayton (Montgomery County). The value of the tax credit is estimated at \$55,466 over the term, and the company would be required to maintain operations at the project site for nine years. Established in 1994, Composite Technologies Co. began as a compression molder of recycled plastics. Over the years the company has molded and provided environmentally friendly product solutions for customers like Huffy, Lifetime Products, Parker Hannifin, and John Deere along with many smaller manufactures. This \$2.88 million project is expected to create 50 jobs.

**ConAgra Foods Packaged Foods, LLC** has been awarded a 40 percent job creation tax credit for a six-year term as a result of the company's expansion in the City of Troy (Miami County). The value of the tax credit is estimated at \$76,066 over the term, and the company would be required to maintain operations at the project site for 12 years. ConAgra is a leading branded foods company and is the trusted name behind many brands including Healthy Choice, Chef Boyardee, Egg Beaters, Hebrew National, Hunts, Orville Redenbacher, PAM, and Banquet, among others. This nearly \$5 million project is expected to create 50 positions and retain 285 jobs.

**CSAFE LLC** has been awarded a 45 percent job creation tax credit for a six-year term for its expansion in the City of Moraine (Montgomery County). The value of the tax credit is estimated at \$132,326 over the term, and the company would be required to maintain operations at the project site for 12 years. CSAFE will manufacture, market, and sell Federal Aviation Administration-certified container devices used by air freight haulers to various high-value payloads that require temperature-controlled air cargo handling. The project includes leasehold improvements and the acquisition of machinery and equipment. This \$220,000 project is expected to create 25 positions.

**Curwood Inc.** has been awarded a 40 percent job creation tax credit for a five-year term for the location of its facility in the City of Fremont (Sandusky County). The value of the tax credit is estimated at \$57,329 over the term, and the company would be required to maintain operations at the project site for 10 years. Curwood supplies advanced packaging materials and systems for the food, beverage, household, industrial, and personal care industries. The project includes the installation of additional equipment and a significant expansion of Curwood's existing facility. This \$10.5 million project is expected to create 37 positions and retain 154 jobs.

**CVC 1 Limited, LLC** has been awarded a 35 percent job creation tax credit for a five-year term in support of the company's new location at a site to be determined. The value of the tax credit is estimated at \$24,036 over the term, and the company would be required to maintain operations at the project site for 10 years. CVC 1 has developed and patented a technology that enhances the ability to increase wire and cable volume in a building while lessening heat and harmonics in digital loads. This \$4.5 million project is expected to create 30 positions.

**Echogen Power Systems, Inc.** (FKA reXorce Thermionics, Inc.) has been awarded a 50 percent job creation tax credit for a seven-year term in support of the company's expansion project in the City of Akron (Summit County). The value of the tax credit is estimated at \$732,063 over the term, and the company would be required to maintain operations at the project site for 14 years. Headquartered in Akron, reXorce was founded in 2007 with the mission of harvesting existing thermal resources and transforming them into usable, valuable energy for its customers. Since then, the company has developed the Thermefficient thermal engine, a proprietary system that recovers thermal energy from a wide variety of heat sources and transforms it into usable electricity, cooling, shaft work, and heating. This \$1.46 million project is expected to create 59 positions and retain 18 jobs.

**e-Cycle, Inc.** has been awarded a 40 percent job creation tax credit for a six-year term in support of the company's expansion in the City of Hilliard (Franklin County). The value of the tax credit is estimated at \$101,414 over the term, and the company would be required to maintain operations at the project site for 12 years. e-Cycle is a full service wireless recycling company, founded on the mission to support fundraising programs for a variety of interests, that recycles and resells new and used wireless phones and accessories, keeping hundreds of thousands of pounds of electronic waste out of U.S. landfills. This \$200,000 project is expected to create 40 positions and retain 17 jobs.

**Ed Map, Inc.** has been awarded a 50 percent job creation tax credit for a five-year term as a result of the company's expansion in the City of Athens (Athens County). The value of the tax credit is estimated at \$77,742 over the term, and the company would be required to maintain operations at the project site for 10 years. Ed Map, founded in 2002 as a distributor of textbooks to distance learning programs and students, provides the products, services and support systems that make it possible for distance learning providers focused on a quality education. The project involves leasehold improvements as well as the acquisition of machinery and equipment. This more-than \$1.3 million project is expected to create 40 positions and retain 92 jobs.

**Eden Cryogenics, LLC** has been awarded a 50 percent job creation tax credit for a seven-year term as a result of the company's relocation in the Village of Plain City (Union County). The value of the tax credit is estimated at \$115,236 over the term, and the company would be required to maintain operations at the project site for 14 years. Eden manufactures cryogenic products and equipment for the alternative fuel, energy, aerospace and commercial cryogenic and vacuum markets. This \$2.367 million project is expected to create 30 positions and retain 23 jobs.

**Five Star Technologies, Inc.** has been awarded a 60 percent job creation tax credit for a seven-year term as a result of the company's relocation to a site to be determined in Northeast Ohio (Cuyahoga County). The value of the tax credit is estimated at \$1,092,280 over the term, and the company would be required to maintain operations at the project site for 14 years. Five Star, founded in 1995, is focused on becoming a technology and manufacturing leader in Ohio for specific application critical to the mass production of solar cells. This \$1.09 million project is expected to create 106 positions and retain 15 jobs.

**GE Lighting, Inc.** has been awarded a 50 percent job creation tax credit for a six-year term as a result of the company's new facility in the City of Bucyrus (Crawford County). The value of the tax credit is estimated at \$477,171 over the term, and the company would be required to maintain operations at the project site for 12 years. As the headquarters for GE Lighting, Ohio is home

to several GE Lighting facilities. As part of this project, GE Lighting will reinvest in its Bucyrus location to accommodate for future growth. This \$54 million project is expected to create 100 positions and retain 185 jobs.

The value of the tax credit is estimated at \$499,154 over the term. General Mills, which can trace its history to flour mills built in 1866, manufactures and distributes food products around the world. Today, the company represents one of the food industry's largest operations in the world, with more than 100 brands satisfying several industry markets. This \$70 million project is expected to create 70 positions and retain 1,154 jobs.

**GOJO Industries, Inc.** has been awarded a 40 percent job retention tax credit for a five-year term in support of the company's expansion project in the City of Akron (Summit County). The value of the tax credit is estimated at \$37,564 over the term, and the company would be required to maintain operations at the project site for 10 years. Founded more than 60 years ago, GOJO manufactures, markets, and sells skin care products consisting of over-the-counter topical antimicrobial products and cosmetics worldwide to the medical, industrial, automotive, foodservice, and commercial markets. This \$1 million project is expected to create 10 positions and retain 294 positions.

**Graeter's Manufacturing Co.** has been awarded a 45 percent job creation tax credit for a six-year term in support of the company's new location in the City of Cincinnati (Hamilton County). The value of the tax credit is estimated at \$49,917 over the term, and the company would be required to maintain operations at the project site for 10 years. Graeter's was founded in Cincinnati in 1870, and has manufactured small batch gourmet ice cream over the course of four generations of ownership. The project includes the acquisition of machinery and equipment, as well as the construction of a new manufacturing facility. This more-than \$9.235 million project is expected to create 30 positions and retain 25 jobs.

**Green Bay Dressed Beef, LLC** has been awarded a 45 percent job creation tax credit for a six-year term as a result of the company's expansion in the City of Sharonville (Hamilton County). The value of the tax credit is estimated at \$126,080 over the term, and the company would be required to maintain operations at the project site for nine years. Green Bay Dressed Beef, a subsidiary of American Foods Group, LLC, is a food manufacturer engaged in beef processing. This \$10.9 million project is expected to create 78 positions and retain 86 jobs.

**Green Life, LLC** was awarded a 40 percent job creation tax credit for a five-year term for the location of its facility in the City of Nelsonville (Athens County). The value of the tax credit is estimated at \$33,808 over the term, and the company would be required to maintain operations at the project site for 10 years. Green Life is a manufacturer and retailer of outdoor furniture to internet customers and commercial buyers. The project is two-phased: phase one involves the installation of Green Life's equipment and inventory; phase two involves making manufacturing at the site fully operational. This \$625,000 project was expected to create 30 positions.

**Greenfield Solar Corp.** has been awarded two 60 percent job creation tax credits, each for eight year terms, in support of the company's projects in the cities of Oberlin and North Ridgeville (Lorain County). The value of the tax credits are estimated at a combined \$850,000 over the term of the agreements, and the company would be required to maintain operations at the project sites for 16 years. Greenfield developed and has begun manufacturing concentrating photovoltaic systems (CPV), which reduce costs associated with photovoltaic power. These combined \$23.555 million projects are expected to create 200 positions and retain 3 jobs.

**H.J. Heinz Company, LP** has been awarded a 45 percent job creation tax credit for a five-year term for the expansion of its Portion Pac division's facility in the City of Mason (Warren County). The value of the tax credit is estimated at \$47,539 over the term, and the company would be required

to maintain operations at the project site for 10 years. Portion Pac, a division of Heinz, is a leading producer of individually packaged condiments for restaurants and food service providers. Portion Pac is planning the renovation of existing space, as well as the acquisition of machinery and equipment. This \$4.945 million project is expected to create 25 positions and retain 442 jobs.

**Holtec Engineering Aluminum Systems Division LLC** has been awarded a 45 percent job creation tax credit for a six-year term as a result of the company's project in the City of Orrville (Wayne County). The value of the tax credit is estimated at \$475,389 over the term, and the company would be required to maintain operations at the project site for nine years. Holtec is a vertically integrated supplier of a wide range of aluminum products for many diverse end markets, such as building products, transportation, point-of-purchase display, material handling, architectural, and nuclear industries. This \$21.08 million project is expected to create 200 positions and retain 102 jobs.

**Home Depot U.S.A., Inc., The** has been awarded a 45 percent job creation tax credit for a five-year term in support of the company's new distribution center in Allen Township (Hancock County). The value of the tax credit is estimated at \$285,269 over the term, and the company would be required to maintain operations at the project site for 10 years. Home Depot is a publicly held retailer of home improvement goods, providing various installation services, credit purchase programs, and products through online catalogs. The new distribution center will serve as a home furnishing distribution center for nearly 120 stores in the Midwest. This \$39 million project is expected to create 300 positions.

**Human Arc Corporation of Ohio & Human Arc Corporation** has been awarded a 45 percent job creation tax credit for a six-year term as a result of the company's expansion in the City of Cleveland (Cuyahoga County). The value of the tax credit is estimated at \$114,094 over the term, and the company would be required to maintain operations at the project site for 12 years. Human Arc was established in Cleveland in 1984 and currently employs 330 people globally. Human Arc provides services to hospitals and health plans nationwide to assist low income and disabled individuals by identifying and enrolling the patients in programs for which they are eligible. This \$250,000 project is expected to create 50 positions and retain 257 jobs.

**Ice River Springs USA Inc.** has been awarded a 40 percent job creation tax credit for a six-year term as a result of the company's expansion in the Village of St. Paris (Champaign County). The value of the tax credit is estimated at \$64,146 over the term, and the company would be required to maintain operations at the project site for 12 years. Ice River was established in 1995 and has grown since then to become the largest private-label bottler in Canada. This nearly \$8.2 million project is expected to create 33 jobs.

**Immediate Pharmaceutical Services, Inc.** has been awarded a 50 percent job creation tax credit for an eight-year term in support of the company's new location in the City of Avon Lake (Lorain County). The value of the tax credit is estimated at \$1 million over the term, and the company would be required to maintain operations at the project site for 16 years. Immediate Pharmaceutical Services operates a fully-integrated prescription mail service center, and will provide Catalyst Health Solutions' clients with an in-house mail service option. This \$4.2 million project is expected to create 200 positions and retain 90 jobs.

**Innovative Communication Solutions LLC** has been awarded a 45 percent job creation tax credit for a six-year term for the company's new location in the City of Akron (Summit County). The value of the tax credit is estimated at \$185,256 over the term, and the company would be required to maintain operations at the project site for 12 years. Innovative Communication Solutions, founded in 2007, specializes in real-time delivery of mission-critical data over advanced communication infrastructure via comprehensive solutions for remote management, access, and control. The project involves the lease of an existing building as well as the acquisition of machinery and equipment. This \$700,000 project is expected to create 35 positions.

**Intelligrated, Inc.** has been awarded a 75 percent job creation tax credit for a 10-year term in support of the company's expansion in West Chester Township (Butler County), the City of London (Madison County), and the City of Mason (Warren County). The value of the tax credit is estimated at \$1,531,809 over the term, and the company would be required to maintain operations at the project site for 13 years. Intelligrated designs, engineers, manufactures, installs, tests, and provides after market services for unit material handling systems in the logistics & retail distribution, consumer products, post and parcel marketplaces. This \$6.6 million project is expected to create 267 and retain 537 jobs.

**International Technical Coatings, Inc.** has been awarded a 50 percent job creation tax credit for a seven-year term in support of the company's expansion project at a site to be determined. The value of the tax credit is estimated at \$369,775 over the term, and the company would be required to maintain operations at the project site for 14 years. Founded in 1993 as a powder coating company, International Technical Coatings is an automated wire fabricator with manufacturing and distribution capabilities. This \$16.2 million project is expected to create 200 positions and retain one job.

**Intrust Transportation, LLC** was awarded a 40 percent job creation tax credit for a five-year term in support of the company's expansion project in the City of Coshocton (Coshocton County). The value of the tax credit is estimated at \$53,527 over the term, and the company would be required to maintain operations at the project site for 10 years. Established in 2008, Intrust is a privately held, third-party, non asset-based logistics company, providing a transportation logistics service to companies that may not have the ability to distribute their goods and services with their own resources. Intrust has relationships with more than 600 carriers nationwide that provide a full services coverage for the "just in time" delivery of goods all across North America. This \$168,000 project was expected to create 40 positions and retain 12 jobs.

**Johns Manville** has been awarded a 55 percent job creation tax credit for a 10-year term in support of the company's relocation to the Village of Milan (Erie County). The value of the tax credit is estimated at \$464,827 over the term, and the company would be required to maintain operations at the project site for 20 years. Founded in 1858, Johns Manville is a leading manufacturer and marketer of premium-quality building insulation, commercial roofing, roof insulation, and specialty products for commercial, industrial, and residential applications. This \$44.2 million project is expected to create 100 positions.

**JPMorgan Chase Bank, National Association, JPMorgan Chase & Co.** have been awarded a 75 percent job creation tax credit for a 15-year term as a result of the company's expansion in the cities of Columbus and Westerville (Franklin and Delaware County). The value of the tax credit is estimated at \$14,013,575 over the term, and the company would be required to maintain operations at the project site for 30 years. JPMorgan, a bank holding company, was founded in 1823 with its headquarters residing in New York, New York. The company provides a range of financial services worldwide, operating in six segments including investment banking, commercial banking, treasury and securities services, asset management, retail financial services, and card services. The project in the City of Columbus and the City of Westerville includes the expansion of five existing JPMorgan facilities, consisting of extensive leasehold improvements and the acquisition of machinery and equipment. Founded in London in 1998, Xchanging is an international business process company providing outsourced business processes to global blue chip customers. This \$8.9 million project is expected to create 785 positions and retain 200 jobs.

## **Section C: Projects with Tax Credit Agreements Executed with Ohio Tax Credit Authority during Calendar Year 2009**

---

Pursuant to Ohio Revised Code §122.17(C) the Tax Credit Authority is authorized to enter into tax credit agreements with participating taxpayers, provided all of the following: (1) the taxpayer's project will create new jobs in this State; (2) the taxpayer's project is economically sound; and (3) receipt of tax credit assistance is a major factor in the taxpayer's decision to go forward with its respective project.

This section includes information of taxpayer that entered into a tax credit agreement with the Tax Credit Authority during calendar year 2009. Also included is a brief summary of each taxpayer's project.

Economic benefits to the State associated from projects whose tax credit agreements were fully executed during calendar year 2009 include the following:

- Commitments by taxpayers to undertake 116 significant economic development projects throughout the State.
- Attendant taxpayer commitments to create 13,139 and retain 27,067 full-time jobs within three years.
- Committed investments in fixed assets totaling nearly \$1.92 billion across the State.

## Section C – Table: Job Creation Tax Credit Contracts Executed in Calendar Year 2009

**A. Schulman, Inc.**, located in the City of Akron (Summit County), has been awarded a 45 percent credit for a five-year term to expand its facility. The value of the tax credit is estimated at \$209,175 over the term, and the company would be required to maintain operations at the project site for 10 years. A. Schulman is a leading international supplier of high-performance plastic compounds and resins, which are used as raw materials in a variety of markets. The company's principal product lines consist of proprietary and custom-formulated engineered plastic compounds, color concentrates and additives that improve the appearance and performance of plastics in a number of specialized applications. Headquartered in Akron, publicly-owned A. Schulman employs approximately 2,500 people worldwide. The project in the City of Akron includes the renovation to its existing 164,000 square foot plastics manufacturing building in order to increase operating capacity. The company will own the new facility which will be utilized for compounding products used in the additive and film markets. Ohio is in competition with Illinois, Indiana, and Missouri for this more than \$10.5 million project, which is expected to create 80 positions and retain 15 jobs within the first three years of the project's initial operations.

**Affymetrix, Inc. & USB Corporation**, has been awarded a 50 percent credit for a seven-year term for the company's expansion in the City of Warrensville Heights (Cuyahoga County). The value of the tax credit is estimated at \$496,140 over the term, and the company would be required to maintain operations at the project site for 14 years. Affymetrix, founded in 1991 as a division of Affymax N.V., began operating independently in 1992. The company commenced commercial sales of the GeneChip  $\text{A}^{\wedge}$  system for research use in 1994, and currently sells its products directly to pharmaceutical, biotechnology, agrichemical, diagnostic and consumer products companies, as well as academic, government, and other non-profit research institutes. The project includes renovation and leasehold improvements in the existing building, purchase of machinery and equipment and on-site infrastructure improvements. Ohio is in competition with California for this \$2.2 million project, creating 61 new full-time jobs and retaining 78 existing full-time jobs within the first three years of the project's initial operations.

**Alien Technology Corporation**, to be located in the City of Springboro (Montgomery County), has been awarded a 55 percent tax credit for a seven-year term to construct a research, development and training center. The value of the tax credit will be \$644,519 over the term, and the company is required to maintain operations at the site for 14 years. The California-based company focuses on developing, manufacturing and marketing Radio Frequency Identification (RFID) technology products catering to the supply chain and logistics management industries. This \$973,488 project is expected to create 45 jobs within the first three years of operation.

**Amano Cincinnati, Inc.**, located in Loveland (Hamilton County), has been awarded a 60 percent tax credit for a seven-year term to expand its manufacturing operation. The value of the tax credit will be \$237,573 over the term, and the company would be required to maintain operations at the site for 14 years. In Loveland, Amano manufactures and assembles parking equipment that includes pay stations, ticket dispensers, gates and fee computers. The company has a second manufacturing facility located in Anaheim, California, which produces time clocks and time and attendance software. The company proposes to purchase adjacent land where it would construct a 37,781 square-foot addition to its current building and purchase machinery and equipment. Ohio is in competition with California for this \$2.205 million project, which is expected to retain 51 positions and create 57 jobs within the first three years of the projects initial operation.

**American Security Insurance Company**, located in the City of Springfield (Clark County), has been awarded a 60 percent tax credit for a 10-year term to expand operations. The value of the tax credit would be \$628,512 over the term, and the company is required to maintain operations at the site for 20 years. The company provides various forms of property and casualty insurance coverage, and maintains a Hazard Insurance Processing Center in the City of Springfield. The proposed project includes the renovation and expansion of the company's three building campus and the

purchase of new machinery and equipment. Ohio is in competition with South Carolina and Oklahoma for this more than \$1.15 million project, which is expected to retain 1,200 positions and create 200 jobs within the first three years of the project's initial operation.

**Anchor Acquisition, LLC** (Approved as Anchor Hocking CG Operating Company LLC), located in the City of Lancaster (Fairfield County), has been awarded a 55 percent tax credit for an eight-year term to expand its manufacturing operation. The value of the tax credit will be \$159,569 over the term, and the company is required to maintain operations at the site for 16 years. Anchor Hocking is the second largest glassware supplier in the U.S. and manufacturing and marketing products that include beverage ware, candle containers, serving ware, ovenware, storage ware, lighting components and other glass products sold under a variety of brand names. Anchor Hocking proposes to expand and renovate its existing operation and purchase machinery and equipment. Ohio is in competition with Pennsylvania for this \$16.8 million project, which is expected to retain 1,156 positions and create 50 jobs within the first three years of the projects initial operation.

**Arisdyne Systems, Inc.**, located in the City of Cleveland (Cuyahoga County), has been awarded a 45 percent credit for a six-year term to expand its facility. The value of the tax credit is estimated at \$161,301 over the term, and the company would be required to maintain operations at the project site for 12 years. Established in 2006, Arisdyn is an advanced materials and process systems integration company that licenses continuous flow, high-efficiency systems to manufacturers of fuels. The project in Cleveland includes improving an existing 14,000 square-foot facility and the acquisition of new machinery and equipment. This \$1.393 million project is expected to create 24 positions and retain 8 jobs at the project site within the first three years of the project's initial operations.

**Armor Consolidated, Inc., The Armor Group, Inc., and Armor Metal Group Mason, Inc.**, located in the City of Mason (Warren County), have been awarded a 45 percent job creation tax credit for a six-year term for the expansion of the companies' facility in the City of Mason. The value of the tax credit is estimated at \$338,000 over the term, and the companies would be required to maintain operations at the project site for 12 years. Armor Metal Group Mason manufactures a variety of metal products with diverse applications. The project in Mason includes building improvements and the purchase of machinery and equipment. This \$1.565 million project is expected to create 110 positions and retain 192 jobs.

**BAE System Survivability Systems LLC** (approved as Armor Holdings Survivability Systems, LLC (Armor Holdings)), located in West Chester Township (Butler County) has been awarded a 35 percent tax credit for seven-year term to expand its operations in the Greater Cincinnati Area. The value of the tax credit is estimated at \$543,774 over the term, and the company would be required to maintain operations at the project site for 14 years. Armor Holdings is a wholly-owned subsidiary of Armor Holdings, Inc., and is a leading manufacturer and provider of specialized security products, training and support services. It focuses on vehicle armor systems, military helicopter seating systems, air craft and land vehicle safety systems and other technologies to protect humans in life threatening and catastrophic situations. Armor Holdings will consolidate existing operations in the City of Fairfield and West Chester Township to a new 465,220 square-foot facility in West Chester Township in order to streamline operations and increase efficiencies. The company will invest in machinery and equipment that includes: autoclaves, conveyors, glass washers, vacuum bag systems, a flat bed press, edgers, an automated glass loading system, a Computer Numerically Controlled glass cutting table and related equipment. Ohio is in competition with Florida and Kentucky for this \$31 million project, which will create 700 jobs and retain 553 positions within the first three years of the project's initial operation.

**buyCasting.com, Inc.**, located in the City of Miamisburg (Montgomery County), has been awarded a 45 percent credit for a six-year term to establish a new facility in the City of Miamisburg, also in Montgomery County. The value of the tax credit is estimated at \$185,353 over the term, and the

company would be required to maintain operations at the project site for 12 years. buyCastings.com was founded in 2000 and designs and manufactures materials for component manufacturing. The company's latest development is a formulation of materials named FOPAT which, when combined, make an injectable foam. The project in the City of Miamisburg includes an investment in an existing facility and acquisition of machinery and equipment. This \$1.5 million project is expected to create 65 new full-time positions at the project site within the first three years of the project's initial operations.

**CDI Corporation** located in the City of Cleveland (Cuyahoga County), has been awarded a 50 percent tax credit for a five year term to expand its current facility. The value of the tax credit is estimated at \$334,441 over the term, and the company would be required to maintain operations at the project site for 10 years. CDI is a provider of engineering and information technology outsourcing solutions and professional staffing and has an extensive network of offices, recruiters and technical professionals. CDI assists Fortune 1000 clients in targeted vertical markets to improve profitability and efficiency by helping them focus on their core competencies. The company's divisions include CDI Business Solutions, a provider of managed solutions in major industries; CDI AndersElite Limited, a professional staffing and services firm focusing on the construction and engineering markets in the U.K.; and Management Recruiters International, Inc., an executive search and recruitment organization. The company proposes to make leasehold improvements and purchase computer hardware, software and operations equipment to expand three operational centers, the Regional Operations Center, the IT Solutions Outsourcing Center and the Aerospace Engineering Center. CDI will expand its current facility to 31,000 square-feet to house the IT Solutions Outsourcing Center and the Aerospace Engineering Center. Ohio is in competition with Missouri for this more than \$1.841 million project, which is expected to create 76 jobs and retain 32 positions within the first three years of the project's initial operations.

**Cohesant Technologies Inc.** and **CIPAR Inc.**, located in the City of Beachwood (Cuyahoga County), has been awarded a 40 percent tax credit for a five-year term to establish a divisional headquarters and operating facility. The value of the tax credit is estimated at \$106,474 over the term, and the company would be required to maintain operations at the project site for 10 years. CIPAR is a wholly owned subsidiary of Cohesant Technologies Inc., a publicly held company formed in 2001. In August 2005, Cohesant acquired CuraFlo Technologies Inc., a Canadian company that licenses technology used for the protection and renewal of small diameter water pipes used to rehabilitate aging water pipes in residential and commercial buildings. Cohesant established CIPAR in 2005 as a wholly owned subsidiary to operate CuraFlo and to integrate it into its business portfolio as a division of CIPAR. The company proposes to acquire machinery and equipment and lease an existing 15,000 square-foot building to establish the facility and begin deployment of CIPAR products to new and expanding markets. This more than \$663,462 project is expected to create 42 jobs within the first three years of the project's initial operations.

**Crawford Machine, Inc.** and **J/H Real Estate of Galion**, located in the City of Galion (Crawford County), has been awarded a 50 percent tax credit for a five-year term to expand its manufacturing facility. The value of the tax credit will be \$52,376 over the term and the company would be required to maintain operations at the site for 10 years. The company manufactures parts primarily for the semi trailer industry including: hoses, fittings, couplings, braking components for air brakes and air tanks. CMI supplies parts to OEMs in the new vehicle market and after-market sectors. The company plans to acquire a 144,000 square-foot building located across the street from its current facility, where it will make improvements and install new machinery and equipment. The \$2.5 million project is expected to retain 85 positions and create 40 jobs within the first three years of the project's initial operation

**Crown Solutions Co., LLC**, located in the City of Vandalia (Montgomery County), has been awarded a 50-percent Job Creation Tax Credit for a term of up to five years for the creation of 157 full-time jobs resulting from the company's expansion of its facility. The value of the tax credit is estimated at \$892,746 over the term, and the company would be required to maintain operations

at the project site for at least 10 years. Crown Solutions provides total water resources including engineering support, water treatment equipment, chemical management services, analyzer and equipment maintenance, and outsourced high purity and wastewater operating contracts. The company will retain 127 people and will continue to lease the existing 67,000-square-foot facility as well as construct a 30,000-square-foot addition. Ohio is in competition with Indiana for this approximately \$5.115 million project.

**Curwood, Inc.** has been awarded a 40 percent job creation tax credit for a five-year term for the location of its facility in the City of Fremont (Sandusky County). The value of the tax credit is estimated at \$57,329 over the term, and the company would be required to maintain operations at the project site for 10 years. Curwood supplies advanced packaging materials and systems for the food, beverage, household, industrial, and personal care industries. The project includes the installation of additional equipment and a significant expansion of Curwood's existing facility. This \$10.5 million project is expected to create 37 positions and retain 154 jobs.

**D.S. Brown Company, The**, located in the Village of North Baltimore (Wood County), has been awarded a 55 percent tax credit for a seven-year term to expand manufacturing operations. The value of the tax credit would be \$212,593 over the term, and the company would be required to maintain operations at the project site for 14 years. Brown, which is headquartered in North Baltimore and is owned by D.S. Browning Holdings, Inc., is a manufacturer of rubber and steel products sold to the bridge and highway industry; products include structural bearings, expansion joints, extruded rubber seals, and miscellaneous steel bridge components. The company proposes an investment of \$900,000 in new machinery and equipment and construction of a new, approximately \$900,000, 15,000 square-foot building on its 27-acre site. The building would originally be financed and owned by D.S. Brown Holdings, Inc., and used primarily for the manufacturing of steel fabrication of bridge expansion joints. The \$1.8 million project is expected to create 52 jobs and retain 140 existing jobs within the first three years of the project's initial operation.

**Dana Light Axle Manufacturing LLC** (approved as Spicer Driveshaft, Inc.), located in the City of Maumee (Lucas County), will receive a 70 percent tax credit for a 10-year term to expand operations. An integral part of Dana Corporation, Spicer is the world's largest independent driveshaft supplier to light vehicle, medium and heavy truck, off-highway and industrial manufacturers. The company plans to consolidate the Spicer Driveshaft and Axle Divisions into one division, which will be a technology center and divisional office for Dana's Automotive Systems Group. Ohio was in competition with Indiana and Michigan for this \$39 million project, which is expected to create 275 jobs within the first three years of operation and retain 200.

**Dana Light Axle Manufacturing LLC** (approved as Torque-Traction Integration Technologies, Inc.), to be located in the City of Toledo (Lucas County), has been awarded a 60 percent tax credit for a five-year term to begin operations. The value of the tax credit will be \$262,048 over the term, and the company would be required to maintain operations at the site for 10 years. Torque-Traction is a wholly owned subsidiary of Dana Corporation and manufactures and sells drive train modules, systems and components, consisting of axels, drive shafts, structures, and chassis and steering products for the automotive and light vehicle market. DaimlerChrysler has awarded Torque-Traction the business to assemble the front-end module for its Jeep, beginning in August 2006 (with a one-year ramp up to begin in 2005). The proposed project includes Torque-Traction leasing a 100,000 square-foot facility in Toledo to assemble front-end modules for Jeep. The \$6 million project is expected to create 85 jobs within the first three years of the projects initial operation.

**Defender Security Company**, located in the City of Forest Park (Hamilton County), has been awarded a 40 percent Job Creation Tax Credit for a term of up to five years for the creation of 187 full-time jobs and retention of 83 positions resulting from the company's expansion. The value of the tax credit is estimated at \$475,142 over the term, and the company would be required to maintain operations at the project site for at least 10 years. Defender Security Company operates

call center support for companies such as ADT Worldwide, EchoStar Communication's DISH Network, and General Electric. Ohio is in competition with Indiana for this \$95,000 project. Diagnostic Hybrids, Inc., located in the City of Athens (Athens County), has been awarded a 75 percent tax credit for a 10-year term to expand operations. The value of the tax credit will be more than \$1.1 million. DHI develops and manufactures cell cultures and genetically engineered cell lines used by laboratories and hospitals to detect various infectious diseases. DHI maintains a partnership with Ohio University, which has been a major factor in its success. Ohio was in competition with West Virginia for this \$13.5 million expansion project, which is expected to retain 97 positions and create 100 jobs within the first three years of operation.

**East Coast Metal Systems, Inc.; GJR Enterprises, Inc.; Kaley Group, Inc.; & KSRM, Inc. (ECMS)**, to be located in the Village of Bellaire (Belmont County), has been awarded a 65 percent tax credit for a ten-year term to establish a new facility. The value of the tax credit is estimated at \$195,700 over the term, and the company would be required to maintain operations at the project site for 20 years. ECMS fabricates and installs architectural sheet metal products that have been sold through a sister company, Kalkreuth Sheet Metal of Wheeling, West Virginia. The company proposes to purchase new machinery and equipment, land and several existing buildings with a combined 20,000 square-feet of space, to establish a hub for the distribution of manufactured materials and a fabrication shop for new product. Ohio is in competition with West Virginia for this more than \$1.1125 million project, which is expected to create 53 jobs and retain 31 positions within the first three years of the project's initial operations.

**Eaton Corporation**, located in the City of Beachwood (Cuyahoga County), has been awarded a 75 percent job creation tax credit for a 15-year term for the relocation and expansion of its global headquarters to the City of Beachwood (Cuyahoga County). The value of the tax credit is estimated at \$17 million over the term, and the company would be required to maintain operations at the project site for 30 years. Founded in 1911 and headquartered in Cleveland, Eaton is a market leader in electrical systems for a variety of end uses. Eaton employs 82,000 people globally, 3,500 individuals in Ohio, and does business in more than 150 countries. The project in Beachwood involves construction of a new 470,000 square foot worldwide headquarters in the Chagrin Highlands area of Beachwood. This \$115 million project is expected to create 177 positions within three years of the project's initial operations and relocate and retain 509 jobs for the term of the tax credit.

**Embarq Management Company LLC**, located in the City of Mansfield (Richland County), has been awarded a 40 percent tax credit for a six-year term to reorganize and expand its existing facility. The value of the tax credit is estimated at \$214,473 over the term, and the company would be required to maintain operations at the project site for 12 years. The nationwide telecommunications companies that comprised Sprint Nextel Corporation's local division remained part of the Sprint consolidated group until May of 2006 when the local companies were spun-off into a separate entity named Embarq. Embarq is currently in the process of consolidating, growing and expanding its wireless market base, and is evaluating all of its facilities to determine possibilities for consolidation, and if and where the company may expand. The company proposes to reorganize its existing facility and purchase of new machinery and equipment to establish a call center to service new wireless customers. Additional positions would be created to enhance the performance of the company's sales functions. Ohio is in competition with North Carolina and Pennsylvania for this more than \$372,414 project, which is expected to create 62 jobs and retain 255 positions within the first three years of the project's initial operations.

**Express, LLC**, located in the City of Columbus (Franklin County), has been awarded a 60 percent credit for an eight-year term to expand its headquarters. The value of the tax credit is estimated at \$1,073,330 over the term. Express focuses on fashion design and manufacturing for women and men and is one of the ten largest specialty retailers in the United States. Express operations include more than 570 retail outlets in the United States and more than 20,000 associates nationally. The Express brand was first launched in 1980 in Chicago as Limited Express, by Limited

Brands, Inc. Express operated under Limited Brands until July 2007 when Golden Gate Capital, a San Francisco-based private equity firm, purchased a majority interest in the company. Expecting continued growth from Express, Limited Brands maintains minority ownership. The company proposes to purchase new office equipment and invest at its 175,057 square-foot headquarters located within the Limited Brands complex. Ohio is in competition with the company's existing corporate offices in New York. The estimated \$7.9 million project is expected to create 120 corporate positions within the first three years of the project's initial operations and retain 356 jobs.

**FirstEnergy Corp.**, located in the City of Akron (Summit County), has been awarded a 55 percent tax credit for an eight-year term to consolidate several smaller facilities in order to increase operating capacity. The value of the tax credit is estimated at \$838,485 over the term, and the company would be required to maintain operations at the project site for 16 years. FirstEnergy is a diversified energy company that is headquartered in Akron and is involved in the generation, transmission, and distribution of electricity, as well as energy management and other energy-related services. The company's seven electrical utility operating companies comprise the nation's fifth largest investor-owned electric system. FirstEnergy has 13,948 megawatts of generating capacity and services 4.5 million customers in its 36,100 square-mile service area in New Jersey, Ohio, and Pennsylvania. The company proposes to construct a new 200,000 square-foot facility and is contemplating a second development phase that may include a reconfiguration of its downtown Akron facility. This phase would involve the purchase of new computers and workstations for job growth of FirstEnergy Solutions and the Asset Management division of FirstEnergy. This more than \$29.85 million project is expected to create 150 jobs and retain 2,299 positions within the first three years of the project's initial operations.

**FirstGroup America, Inc.**, located in the City of Cincinnati (Hamilton County), has been awarded a 55 percent tax credit for a seven-year term to expand its headquarters facility. The value of the tax credit is estimated at \$968,513 over the term, and the company would be required to maintain operations at the project site for 14 years. FirstGroup and related entities in North America provide school bus transportation, public transit, inter-city bus transportation, and vehicle fleet maintenance services. FirstGroup America was established in 1999 and has total employment in North America of approximately 98,000. FirstGroup plc, the corporate parent based in the U.K., has approximately 135,000 employees worldwide. FirstGroup proposes to invest in leasehold improvements and information technology equipment. FirstGroup has recently completed a significant acquisition and anticipates leasing approximately 75,000 square feet of space at a facility that will be used as the company's U.S. headquarters. Ohio is in competition with other states for this \$1.5 million project, which is expected to create 360 jobs and retain 140 positions within the first three years of the project's initial operations.

**Fleetwood Travel Trailers of Ohio, Inc.**, located in the Village of Edgerton (Williams County), has been awarded a 60 percent tax credit for a five-year term to expand its manufacturing operation. The value of the tax credit would be \$450,304 over the term, and the company would be required to maintain operations at the site for 10 years. Fleetwood Enterprises, Inc., is one of North America's largest producers of recreational vehicles and manufactured homes. Ohio is in competition with Maryland, Georgia, Tennessee, and Oregon for this \$755,000 project, which is expected to retain 4 positions and create 200 new jobs within the first three years of the project's initial operation.

**Freeman Schwabe Machinery LLC**, to be located in Union Township (Clermont County), has been awarded a 40 percent tax credit for a five-year term to establish its first Ohio facility. The value of the tax credit is estimated at \$118,864 over the term, and the company would be required to maintain operations at the project site for 10 years. Freeman Schwabe is based in Erlanger, Kentucky, and is a leading manufacturer of industrial die-cutting and converting systems and services. Freeman Schwabe has over 4,000 machines in production that serve several types of industries on six continents. Freeman Schwabe applications are most widely used in the automotive and related industries. The company proposes to purchase machinery and equipment

and a greenfield site to construct a 25,000 square-foot facility that will house Freeman Schwabe's corporate headquarters, manufacturing, assembly, and distribution operations. Ohio is in competition with Indiana and Kentucky for this \$220,000 project, which is expected to create 25 positions within the first three years of the project's initial operations.

**Friction Products Co.**, located in the City of Medina (Medina County), has been awarded a 40 percent credit for a seven-year term to expand its facility. The value of the tax credit is estimated at \$214,217 over the term, and the company would be required to maintain operations at the project site for 14 years. Friction was founded in 1961 as a manufacturer of metallic brake pads for commercial aircraft. Friction is a wholly-owned subsidiary of Wellman Products Group, Inc. Holding Company, which is in turn a wholly-owned subsidiary of Hawk Corporation. The company's primary product line is brake and clutch friction materials for industrial equipment, including construction and mining, aircraft, agriculture, heavy truck, and performance automotive applications. The company is primarily an original equipment supplier to companies such as Caterpillar, Deere, Eaton, Goodrich, and Meggit Aircraft Systems. The company proposes to purchase new machinery and equipment and lease an existing 97,000 square-foot building adjacent to its current facility that will be used to fulfill the company's expected volume growth in fuel cell manufacturing activity, as well as the growth in Hawk's friction materials business. Ohio is in competition with Oklahoma for this more than \$12.654 million project, which is expected to create 95 positions and retain 250 jobs within the first three years of the project's initial operations.

**Friction Products Co.**, located in the City of Solon (Cuyahoga County), has been awarded a 40 percent credit for a five-year term to expand its facility. The value of the tax credit is estimated at \$49,889 over the term, and the company would be required to maintain operations at the project site for 10 years. Friction Products was founded in 1961 as a manufacturer for metallic brake pads for commercial aircraft. The company's primary product line is brake and clutch friction materials for industrial equipment including construction and mining, aircraft, agriculture, heavy truck, and performance automotive applications. The company is primarily an original equipment supplier to companies such as Caterpillar, Deere, Eaton, Goodrich, and Meggit Aircraft Systems. Ohio is in competition with Oklahoma for this \$2 million project, which is expected to create 10 new full-time positions within the first three years of the project's initial operations and retain 29 existing full-time jobs.

**Fulton County Processing, Ltd.**, located in York Township (Fulton County), has been awarded a 40 percent job creation tax credit for a five-year term for the expansion of its facility in York Township. The value of the tax credit is estimated at \$44,000 over the term, and the company would be required to maintain operations at the project site for 10 years. Fulton County Processing, established in 2001, is a coil toll processor that services facets of the steel industry. The project in York includes the addition of approximately 83,000 square feet to enlarge its shipping and coil storage areas. This \$3.75 million project is expected to create 25 positions and retain 47 jobs.

**GCA Service Group, Inc.**, to be located in the City of Cleveland (Cuyahoga County), has been awarded a 45 percent tax credit for five-year term to expand its headquarters. The value of the tax credit is estimated at \$99,268 over the term, and the company would be required to maintain operations at the project site for 10 years. GCA, a privately held company, was incorporated in 2002 and through a series of acquisitions has grown to become a leading national provider of facility management services. The industries and clients that GCA primarily serves include higher education, K-12 schools, corporate office buildings, nuclear power and utilities, manufacturing, high-tech, aviation, and pharmaceutical. The company proposes relocating GCA's existing headquarters to the City of Cleveland an investment of \$100,000. The facility will be used primarily for administration. Ohio is in competition with Pennsylvania and Illinois. The project is expected to create 25 jobs and retain 22 positions within the first three years of the project's initial operations.

**General Aluminum Manufacturing Company** located in both Rootstown Township (Portage County), has been awarded two 40 percent credits for five-year terms to establish two new facilities. The combined value of the tax credits is estimated at \$274,128, and the company would be required

to maintain operations at both project sites for 10 years. The credit will support the re-opening of a shuttered manufacturing facility purchased out of bankruptcy by General Aluminum. The company produces components used in car engines, transmissions, suspension systems, and brake systems. General Aluminum is publicly-held by Park-Ohio Holdings Corporation, a leading provider of supply-chain logistics services and manufacturer of engineered products. General Aluminum proposes to re-open aluminum foundries in Ravenna and Rootstown, Portage County. Ohio is in competition with Indiana and Mississippi for the combined \$5.8 million projects, which are expected to create a total of 175 positions within the first three years of the projects' initial operations.

**General Motors LLC** (Approved as General Motors Corporation), located in the Village of Lordstown (Trumbull County), has been awarded a 75 percent credit for a fifteen-year term for the company's expansion of its facility. The value of the tax credit is estimated at approximately \$4,423,934 over the term, and the company would be required to maintain operations at the project site for 30 years. GM, founded in 1908, manufactures and markets automobiles, automotive systems, engines, heavy-duty automatic transmissions, component parts, and locomotives worldwide. The company is the world's largest automaker and employs over 284,000 people worldwide. The project in the Village of Lordstown includes purchasing machinery and equipment, including assembly tools. The updates will allow the Lordstown facility to produce a next-generation, fuel efficient global small car program. The new car will be designed to set quality and safety benchmarks for the compact car class, and will represent the first U.S. application of GM's global architecture strategy. This \$317.3 million project in Lordstown is estimated to create 200 new full-time jobs and retain 3,700 existing full-time jobs within three years of the project's initial operations.

**GOJO Industries, Inc.** has been awarded a 40 percent job retention tax credit for a five-year term in support of the company's expansion project in the City of Akron (Summit County). The value of the tax credit is estimated at \$37,564 over the term, and the company would be required to maintain operations at the project site for 10 years. Founded more than 60 years ago, GOJO manufactures, markets, and sells skin care products consisting of over-the-counter topical antimicrobial products and cosmetics worldwide to the medical, industrial, automotive, foodservice, and commercial markets. This \$1 million project is expected to create 10 positions and retain 294 positions.

**Graeter's Manufacturing Co.** has been awarded a 45 percent job creation tax credit for a five-year term in support of the company's new location in the City of Cincinnati (Hamilton County). The value of the tax credit is estimated at \$49,917 over the term, and the company would be required to maintain operations at the project site for 10 years. Graeter's was founded in Cincinnati in 1870, and has manufactured small batch gourmet ice cream over the course of four generations of ownership. The project includes the acquisition of machinery and equipment, as well as the construction of a new manufacturing facility. This more-than \$9.235 million project is expected to create 30 positions and retain 25 jobs.

**Gummer Wholesale, Inc.**, located in the City of Heath (Licking County), has been awarded a 45 percent job creation tax credit for a six-year term for its expansion in the City of Heath. The value of the tax credit is estimated at \$118,000 over the term, and the company would be required to maintain operations at the project site for 12 years. Gummer Wholesale, founded in 1953, operates in the wholesale distribution of varied retail grocer products. The project in Heath includes property improvements and the purchase of machinery and equipment. This \$2.26 million project is expected to create 65 positions and retain 76 jobs.

**GXS, Inc.**, located in the City of Brook Park (Cuyahoga County), has been awarded a 45 percent credit for a six-year term to expand its facility. The value of the tax credit is estimated at approximately \$637,486 over the term, and the company would be required to maintain operations at the project site for 12 years. GXS is a leading worldwide provider of business-to-business EDI and supply chain integration, synchronization and collaboration solutions. GXS has over 1,800

employees and 400 contractors in 25 countries, and approximately 750 employees in the United States. The project includes the expansion of its existing facility in Brook Park to include a state-of-the-art, world class command and control center that would optimize workflow by placing customer-facing and operational support personnel in the same facility. This project would allow GXS to house and manage all customer data for the Americas and would allow GXS to be a back up center for data currently managed and housed in Amsterdam and Hong Kong. This more than \$2.725 million project is expected to create 75 positions and retain 52 jobs within the first three years of the project's initial operations.

**H.J. Heinz Company, LP**, has been awarded a 45 percent job creation tax credit for a five-year term for the expansion of its Portion Pac division's facility in the City of Mason (Warren County). The value of the tax credit is estimated at \$47,539 over the term, and the company would be required to maintain operations at the project site for 10 years. Portion Pac, a division of Heinz, is a leading producer of individually packaged condiments for restaurants and food service providers. Portion Pac is planning the renovation of existing space, as well as the acquisition of machinery and equipment. This \$4.945 million project is expected to create 25 positions and retain 442 jobs.

**Harrison Ethanol LLC**, to be located in the Village of Cadiz (Harrison County), has been awarded a 50 percent tax credit for a seven-year term to begin operations. The value of the tax credit will be \$479,203 over the term, and the company is required to maintain operations at the site for 14 years. Harrison Ethanol plans to construct a 1.8 million square-foot biorefinery that will utilize components of corn to produce ethanol, a clean burning, and low-emission, high-octane fuel additive for motor vehicles. The company also plans to sell the byproducts of the ethanol process, which includes carbon dioxide and bio-diesel fuel components (corn oil and ethanol) that will be captured, liquefied or solidified. Methane gas produced at the sites anaerobic digester is a byproduct of the animal husbandry division, and will be captured and used to produce renewable electrical energy and heat. The more than \$15.342 million project is expected to create 107 jobs within the first three years of operation.

**Health Care REIT, Inc.**, located in the City of Toledo (Lucas County), has been awarded a 60 percent job creation tax credit for a seven-year term for its expansion in the City of Toledo. The value of the tax credit is estimated at \$510,000 over the term, and the company would be required to maintain operations at the project site for 14 years. Health Care REIT, founded in 1970, is a real estate investment trust that specializes in health care and senior living facilities. The project in Toledo includes the acquisition and renovation of an existing facility. This \$25.4 million project is expected to create 45 positions and retain 68 jobs.

**Highway Composites, LLC** Monroeville Industrial Moldings Inc., located in the City of Norwalk (Huron County), has been awarded a 45 percent tax credit for seven-year term to consolidate the operations of two subsidiary companies. The value of the tax credit is estimated at \$130,267 over the term, and the company would be required to maintain operations at the project site for 14 years. The firm is a private holding company with two primary subsidiary companies, Monroeville Industrial Moldings, Inc and PIPO, Inc. The former is presently located in Monroeville (Huron County) and PIPO is located in Norwalk (Huron County). The proposed project includes the purchase of an existing 213,000 square-foot building where PIPO currently leases space. The company proposes to invest \$2.3 million for the purchase of the building and \$1.15 million for new manufacturing machinery and equipment. The facility will be used to manufacture and distribute Monroeville's line of plastic support components for highway guardrail systems and for the materials and logistics handling business of PIPO. Ohio is in competition with Utah for this more than \$3.45 million project, which is expected to create 69 jobs and retain 24 positions within the first three years of the project's initial operation.

**Hydro Systems Company**, located in the City of Cincinnati (Hamilton County), has been awarded a 45 percent job creation tax credit for a six-year term for the expansion of its facility. The value of the tax credit is estimated at \$80,308 over the term, and the company would be required to

maintain operations at the project site for 12 years. Established in 1963, Hydro is the world's largest manufacturer of proportioning and dispensing systems, serving multiple markets and maintaining headquarters in Cincinnati. The project in Cincinnati includes construction of a new 20,000 square-foot facility adjacent to its existing operations. This \$1.185 million project is expected to create 31 positions and retain 125 jobs within three years of the project's initial operations.

**Intuit Real Estate Solutions**, located in the Village of Highland Hills (Cuyahoga County), has been awarded a 50 percent credit for a six-year term for the company's expansion in the Village of Highland Hills, Cuyahoga County. The value of the tax credit is estimated at \$1.1 million over the term, and the company would be required to maintain operations at the project site for 12 years. Intuit Real Estate Solutions is a division of Intuit Inc., a publicly owned company established in 1983 and headquartered in Mountain View, California. Intuit Inc. is a leading provider of business and financial management solutions for small- and mid-sized businesses, consumers, and accounting professionals. The company's flagship products and services, including QuickBooks, Quicken, and TurboTax software, simplify small business management and payroll processing, personal finance, and tax preparation and filing. The project in Highland Hills includes an extension of the company's current seven-year lease of its existing facility in the Village. Ohio is in competition with New Jersey and Arizona for this \$1.6 million project, creating 135 new full-time jobs and retaining 222 full-time jobs within the first three years of the project's initial operations.

**J.M. Smucker Company**, The has been awarded a 65 percent job creation tax credit for a 10-year term as a result of the company's expansion of its corporate headquarters in the City of Orrville (Wayne County). The value of the tax credit is estimated at \$1.8 million over the term, and the company would be required to maintain operations at the project site for 20 years. The J.M. Smucker Company is a leading marketer and manufacturer of a variety of branded food products including Smucker's®, Folgers®, Jif®, Crisco®, and Eagle Brand®. The company earned the number one ranking in FORTUNE Magazine's annual listing of *100 Best Companies To Work For in the United States* in 2004. This more-than \$15.6 million project is expected to create 115 positions and will increase the number of employees in Orrville to more than 372.

**Kao Brands Company** has been awarded a 45 percent job creation tax credit for a seven-year term for the location of its facility in the City of Cincinnati (Hamilton County). The value of the tax credit is estimated at \$321,702 over the term, and the company would be required to maintain operations at the project site for 14 years. Kao is a producer of personal care, household, sanitary, and healthcare products. The project involves the acquisition of machinery and equipment, as well as property improvements at the company headquarters in Cincinnati. This \$7.9 million project is expected to create 30 positions and retain 449 jobs.

**KCI Holding USA, Inc.**, located in the City of Springfield (Clark County), has been awarded a 50 percent credit for a six-year term to expand operations. The value of the tax credit is estimated at \$158,620 over the term, and the company would be required to maintain operations at the project site for 12 years. KCI Holding USA, Inc. owns Konecranes, Inc. and R & M Materials Handling, Inc. Konecranes Inc. is a manufacturer of cranes and other industrial lifting equipment, operating three main business units: maintenance services, standard lifting equipment, and special cranes. Products include heavy duty cranes, industrial cranes, light lifting equipment, and shipyard cranes. KCI Holdings USA offers such services as consulting, inspection, maintenance, and parts replacement. The company serves the automotive, harbor, power, and steel industries, among others. The company proposes to invest in new machinery and equipment and build a 24,360 square-foot addition to its 15,200 square-foot facility to consolidate an off-site data center to a single location and expand its training operations. Ohio is in competition with Texas for this \$3.55 million project, which is expected to create 34 jobs and retain 178 positions within the first three years of the project's initial operations.

**Komyo America Co., Inc.** (approved as American Honda Motor Co., Inc.), located in the City of Troy (Miami County), has been awarded a 65 percent tax credit for a 10-year term to expand operations.

The value of the tax credit will be \$413,457 over the term, and the company would be required to maintain operations at the site for 20 years. American Honda is a subsidiary of Honda Motor Company, which manufactures and sells automobiles, motorcycles, power equipment and their component parts. The company currently operates an automotive parts distribution center in Troy where it is considering plans to expand operations to a newly constructed 600,000 square-foot regional distribution hub. Ohio is in competition with Kentucky and Illinois for this more than \$29.88 million project, which is expected to create 110 new jobs within the first three years of operation. The company will also retain 100 positions and maintain an additional 157 positions within the City of Troy.

**Lexi-Comp, Inc.**, located in the City of Hudson (Summit County), will receive a 60 percent tax credit for a seven-year term to expand operations. The value of the tax credit will be \$214,832 over the term, and the company would be required to maintain operations at the site for 14 years. The company is a major reference and custom publisher of health information materials with a suite of products available on many platforms, including Web-based, handheld/PDA, CD-ROM, and print. Lexi-Comp is considering this expansion of office space to grow its clinical, computer programming and sales staffs to keep pace with anticipated growth. The \$2.337 million project would create 18 jobs within the first three years of the project's initial operation and retain 66 positions.

**Lima Energy Company**, to be located in the City of Lima (Allen County), will receive a 65 percent tax credit for a 10-year term to expand operations. The value of the tax credit will be more than \$1.1 million over the term, and the company is required to maintain operations in Ohio for 20 years. Lima Energy Company, a wholly owned subsidiary of Global Energy, Inc., will construct its facility on a 63-acre, former brownfield site and will use state-of-the-art technology to generate approximately 540 MW of electric power per day. The plant will utilize approximately 5,000 tons of solid fuel, including approximately 3,000 tons of Ohio coal per day. The primary product will be electric power for commercial sale on the wholesale market. The \$565.3 million project is expected to create 104 jobs within the first three years of operation.

**Longbow Research, LLC** has been awarded a 65 percent job creation tax credit for a seven-year term in support of the company's corporate operations expansion project in the City of Seven Hills (Cuyahoga County). The value of the tax credit is estimated at \$662,641 over the term, and the company would be required to maintain operations at the project site for 14 years. Established in 2003, Longbow provides bottom-up fundamental research to more-than 200 institutions through the United States and Canada, primarily to mid-cap New York Stock Exchange-listed names. Their focus is on sectors in basic materials, industrial, consumer, technology, healthcare, and consumer business services. This \$50,000 project is expected to create 26 positions and retain 63 jobs.

**Max-Wellness, LLC** has been awarded a 55 percent job creation tax credit for a seven-year term as a result of the company's headquarters expansion in the City of Warrensville Heights (Cuyahoga County). The value of the tax credit is estimated at \$847,366 over the term, and the company would be required to maintain operations at the project site for 14 years. Max-Wellness is a general wellness retailer featuring traditional vitamins, supplements, herbs, homeopathy, and personal healthcare items including self-care, durable medical equipment and daily living aids. The project involves leasehold improvements as well as the acquisition of machinery and equipment. This \$263,000 project is expected to create 150 positions and retain nine jobs.

**Mercury Plastics, Inc.** has been awarded a 45 percent job creation tax credit for a six-year term as a result of the company's expansion in Middlefield Township (Geauga County). The value of the tax credit is estimated at \$95,081 over the term, and the company would be required to maintain operations at the project site for 12 years. Founded in 1965, Mercury is a privately owned company and supplier of high-quality, custom thermoplastic extrusions, extruded plastic profiles, and specialized fabrications. This \$2 million project is expected to create 50 positions and retain 198 jobs.

**MGA Entertainment, Inc.** has been awarded a 55 percent job creation tax credit for a seven-year term in support of the company's expansion project in City of Hudson (Summit County). The value of the tax credit is estimated at \$134,228 over the term, and the company would be required to maintain operations at the project site for 14 years. MGA is a private manufacturer of children's toys and family entertainment products. The company is the largest privately owned toy company in the world and in November 2006, became even larger when it purchased Little Tikes, a multi-national manufacturer and marketer of high-quality, innovative children's products. This \$5.8 million project is expected to create 63 positions and retain 398 jobs.

**Mission Essential Personnel, LLC**, located in the City of Columbus (Franklin County), has been awarded a 60 percent credit for a five-year term to expand its facility in the City of Columbus. The value of the tax credit is estimated at approximately \$897,657 over the term, and the company would be required to maintain operations at the project site for ten years. Mission Essential is a global personnel and management company assisting clients specialized requirements for national security and corporate objectives. Mission Essential was established in Ohio in 2004 under the name Aegis by former members of the US Army Special Forces. The company has grown substantially in its four year existence. The project in the City of Columbus includes expanding its current operation and locating future growth at its 24,200 square foot facility. This \$467,725 project is expected to create 120 positions and retain 84 jobs at the project site within the first three years of the project's initial operations.

**Morgan Engineering Systems, Inc.** has been awarded a 40 percent job creation tax credit for a five-year term as a result of the company's expansion in the City of Alliance (Stark County). The value of the tax credit is estimated at \$49,301 over the term, and the company would be required to maintain operations at the project site for 10 years. Morgan has a rich history dating back to 1868 and has grown to be a world leader in material handling systems for the metals industry. The project includes facility renovations and the acquisition of machinery and equipment. This \$1.5 million project is expected to create 35 positions and retain 79 jobs.

**Motorists Mutual Insurance Company** (approved as The Motorists Insurance Group), headquartered in the City of Columbus (Franklin County), has been awarded a 45 percent credit for a six-year term to expand its workforce. Motorists has approximately 700 Ohio employees. The value of the tax credit is estimated at \$167,951 over the term and the company would be required to maintain employment at the site for 12 years. The Motorists Insurance Group consists of eight property and casualty insurance, life insurance and insurance brokerage companies with assets of more than \$1 billion. Motorists Mutual established in 1928 is the lead company of the group and is represented by almost 4,000 independent agents. The company proposes to expand its presence in its current facility to allow for growth and establish additional workspaces for the new employees. This \$309,000 project is expected to create 40 positions and retain 611 jobs in the next three years of operation.

**Myers Industries, Inc. dba Akro-Mils, Inc. (Akro-Mils)**, located in the City of Sandusky (Erie County), has been awarded a 30 percent tax credit for a five-year term to expand its existing facility. The value of the tax credit is estimated at \$24,070 over the term, and the company would be required to maintain operations at the project site for 10 years. Akro-Mils is a manufacturing segment of its parent company, Myers Industries, Inc. Akro-Mils is headquartered in Akron and is one of four manufacturing segments that sells more than 20,000 products under 14 brands to a diverse mix of customers and markets. The company conducts its business activities in four segments, including three manufacturing segments and one distribution segment. The manufacturing segments consist of North American Material Handling, Automotive and Custom, and Lawn and Garden. The company designs, produces, and markets both plastic and metal storage, organization, transport, and material handling products for use in industrial, commercial, and consumer markets. Akro-Mils proposes to invest in new machinery and equipment and on-site infrastructure to support the relocation of a Petri dish business from Brampton, Ontario, Canada. The new injection molding

lines will complement Akro-Mils existing lines and manufacturing processes and the company will conduct both manufacturing and distribution functions at its existing Sandusky facility. Ohio is in competition with South Carolina and Kentucky for this more than \$1.59 million project, which is expected to create 30 jobs and retain 78 positions within the first three years of the project's initial operations.

**Nationwide Better Health Holding Company**, located in the City of Solon (Cuyahoga County), has been awarded a 35 percent credit for a five-year term to expand operations. The value of the tax credit is estimated at \$218,000 over the term, and the company would be required to maintain operations at the project site for 10 years. NBH, a division of Nationwide Mutual Insurance Company, was founded in 2005 and is a health management company that integrates an array of health and productivity services. The company aims to help other organizations plan their health and absence management programs more effectively, reduce health care costs, and increase productivity. Specifically, Nationwide's model helps companies control health care costs. Headquartered in the City of Columbus, Nationwide is the leading U.S. property and casualty insurer. The privately-held company traces its history back to 1925 and employs more than 36,000 people nationwide. The company proposes to acquire furniture and fixtures and expand its current facility, which will be utilized for administrative and office functions. Ohio is in competition with Arizona, Georgia, Illinois, New Mexico, and Minnesota for this \$292,500 project, which is expected to create 85 positions and retain 85 jobs within the first three years of the project's initial operations.

**Navigator Management Partners, LLC** has been awarded a 50 percent job creation tax credit for a six-year term for its expansion in the City of Columbus (Franklin County). The value of the tax credit is estimated at \$266,457 over the term, and the company would be required to maintain operations at the project site for 12 years. Navigator Management Partners offers a variety of business consulting services based on its core competencies in project management, process design, software solutions, analysis, and change management. The project involves the acquisition of machinery and equipment at the company's headquarters facility. This \$80,000 project is expected to create 19 positions and retain 43 jobs.

**Netflix, Inc.**, has been awarded a 45 percent job creation tax credit for a five-year term for its expansion in the City of Grove City (Franklin County). The value of the tax credit is estimated at \$148,000 over the term, and the company would be required to maintain operations at the project site for 10 years. Netflix is an online movie rental subscription service providing subscriptions to approximately 7.5 million customers in the United States. The project in Grove City includes leasehold improvements and the purchase of machinery and equipment. This \$1.151 million project is expected to create 104 positions and retain six jobs.

**Neturen America Corporation**, located in the City of Hamilton (Butler County), has been awarded a 50 percent for a six-year term for their new facility. The value of the tax credit is established at \$66,100 over the term, and the company is required to maintain operations at the site for 12 years. Neturen is a newly-created joint venture between Neturen Co., Ltd. (Neturen Japan) and Metal One Corporation, both headquartered in Tokyo, Japan. The investment for this project will be made by Neturen USA, Inc., a wholly-owned subsidiary of Neturen Japan. Neturen plans to construct a 70,000 square-foot manufacturing facility on approximately 10 acres for the production of induction tempered steel spring wire. Product will be sold primarily to Tier 1 and Tier 2 automotive parts suppliers that produce suspension components. The \$13.2 million in machinery and equipment to be purchased includes drawing systems machinery, heat treatment systems machinery, quality control equipment, and related equipment. Ohio is in competition with Indiana and Kentucky for this project for this \$18 million project, which is expected to create 26 jobs within the first three years of the project's initial operation.

**Nexergy, Inc.**, located in Columbus (Franklin County), has been awarded a 40 percent credit for a six-year term to expand operations. The value of the tax credit is estimated at \$97,867 over the term, and the company would be required to maintain operations at the project site for 12 years. Nexergy is a private company started in 2000 and headquartered in Columbus. The company was created by the owners of Promark Electronics to consolidate the knowledge base and financial resources of three major regional companies - DC Battery Products, Tauber Electronics, and Promark Electronics - and form one of the largest suppliers of custom battery packs. Nexergy is now a leading designer, integrator, and manufacturer of rechargeable battery packs and chargers. The company is principally engaged in the business of assembling, distributing, and selling batteries, custom battery pack assemblies, battery pack chargers, custom cable assemblies, and other miscellaneous electronic components. Nexergy sells to Original Equipment Manufacturers in the portable medical equipment, computers and printers, safety and security, test and measurement, data acquisition, small appliances and power tools, and military and aerospace markets. The company proposes to purchase new machinery and equipment to add capacity. Ohio is in competition with California for this \$200,000 project, which is expected to create 75 jobs and retain 135 positions within the first three years of the project's initial operations.

**North American Bus Industries, Inc.**, located in the City of Delaware (Delaware County), has been awarded a 45 percent tax credit for a seven-year term to expand its headquarters and national bus parts distribution facility. The value of the tax credit is estimated at \$148,789 over the term, and the company would be required to maintain operations at the project site for 14 years. North American Bus was founded in 1992 and designs, manufactures, assembles, and sells transit buses under the brand names of NABI, Optima, and Blue Bird. The company also owns and operates an aftermarket parts division located in the City of Delaware that supplies aftermarket parts for the products not only manufactured by North American Bus but also other bus manufacturers. The sole business of North American Bus is the sale, assembly and post-delivery support of a full range of heavy-duty diesel, compressed natural gas, liquefied natural gas and hybrid-electric powered, standard-floor and low-floor transit buses, including 60 foot articulated versions. The company proposes to purchase machinery and equipment and lease a new 215,000 square-foot facility to expand its current aftermarket bus distribution operation, as well as establish a new aftermarket parts headquarters operation. This new facility will include administration, sales, contract sales, finance, purchasing, customer service, engineering and distribution of city bus repair parts to the entire United States and some parts of Canada. Ohio is in competition with Alabama, Georgia, and Kansas for this \$2.21 million project, which is expected to create 35 positions and retain 53 within the first three years of the project's initial operations.

**Norwalk Custom Order Furniture, LLC**, located in the City of Norwalk (Huron County), has been awarded a 55 percent credit for a six-year term to establish operations in the City of Norwalk. The value of the tax credit is estimated at \$718,916 over the term, and the company would be required to maintain operations at the project site for 12 years. Norwalk was founded in 1902 and has since been a major presence in the community. The owners of Norwalk closed the business in September 2008, and a group of local investors formed to buy the property and start-up operations as a new entity making use of the Norwalk Furniture brand. The project in the City of Norwalk includes leasing the existing 435,000 square foot Norwalk Furniture facility. This \$2.9 million project is expected to create 260 new full-time jobs at the project site within the first three years of the project's initial operations.

**Norwood Tool Company**, located in the City of Dayton (Montgomery County), has been awarded a 40 percent credit for a six-year term for the company's expansion. The value of the tax credit is estimated at \$97,168 over the term, and the company would be required to maintain operations at the project site for 12 years. Established in 1934, Norwood Tool is a computed numerically controlled machining, stamping, and processing company. The project includes construction of a new 53,000 square foot manufacturing and research and development facility, as well as the acquisition of new machinery and equipment. Ohio is in competition with Texas for this \$3 million project, creating 50 new full-time jobs and retaining 524 within the first three years of the project's initial operations.

**Olympic Steel, Inc.**, to be located in the City of Dover (Tuscarawas County), has been awarded a 40 percent credit for a seven-year term to establish a new facility. The value of the tax credit is estimated at \$47,432 over the term, and the company would be required to maintain operations at the project site for 14 years. Olympic Steel began operations in 1954 and its business focus is primarily hot and cold rolled sheet. The company specializes in rolled carbon steel, specialty alloys, sheet, and plate steel. The company has grown from a rented space in Cleveland to a multi-million dollar steel enterprise that has locations in ten states in three regions of the continental United States. The company proposes to purchase new machinery and equipment and purchase an existing building to establish a new manufacturing facility to meet increased North American customer demand. This more than \$3.55 million project is expected to create 25 positions within the first three years of the project's initial operations.

**PAC Worldwide Corporation** has been awarded a 40 percent job creation tax credit for a six-year term in support of the expansion of its facility in the City of Middletown (Butler County). The value of the tax credit is estimated at \$50,288 over the term, and the company would be required to maintain operations at the project site for 12 years. PAC manufactures protective small package mailers and maintains a worldwide employment base of approximately 500 employees. The project involves site improvements as well as the relocation of machinery and equipment. This more-than \$2.5 million project is expected to create 35 positions and retain 183 jobs.

**PatentHEALTH, LLC**, to be located in Plain Township, the City of Massillon, and Jackson Township (Stark County), has been awarded a 60 percent tax credit for an eight-year term to expand operations. The value of the tax credit will be \$839,542 over the term, and the company would be required to maintain operations at the site for 16 years. PatentHEALTH's primary business is the branded retail sale of nutritional supplement products. To grow its business, PatentHEALTH plans to expand and consolidate its existing facilities into a centralized headquarters, training and distribution operation. This \$14.7 million project is expected to retain 95 full-time positions and create 440 jobs within the first three years of operation.

**PBM Covington, LLC** has been awarded a 50 percent job creation tax credit for a 10-year term as a result of the company's new location in the Village of Covington (Miami County). The value of the tax credit is estimated at \$339,354 over the term, and the company would be required to maintain operations at the project site for 20 years. PBM Covington manufactures, markets, and distributes baby formulas and other nutritional products to more than 20,000 retail locations in the United States and throughout the world. The project involves the acquisition of land, machinery, and equipment, as well as building improvements. This \$21.318 million project is expected to create 49 positions.

**PCMS Datafit, Inc.**, located in the City of Springdale (Hamilton County), has been awarded a 50 percent credit for a five-year term to expand its facility. The value of the tax credit is estimated at \$508,469 over the term, and the company would be required to maintain operations at the project site for ten years. PCMS is part of PCMS Holding Plc, a privately held company, in the United Kingdom. The company was established in 1982 and in 1999 entered the U.S. by acquiring 3X Corporation. PCMS operates its North American headquarters in Springdale and the company's Store Systems Group offers the Vision Portfolio suite of JAVA-based retail solutions software modules. In addition, it's Consulting Services Group, consisting of IT Advisor Group, Analytics Group and iSeries Solutions Group; provides technology consulting to mid-sized clients in the Greater Cincinnati, Dayton and most recently Columbus market. The company maintains partnerships with such major vendors as IBM, Microsoft, Cognos, Cisco, Symantec and VMware. Customers include Bass Pro Shop, Luxottica Group, LaRosas, Rumpke, Premier Health Partners, and General Cable. The company proposes to lease office space and add new data servers in response to closing a number of deals with new customers totaling over \$15 million in revenue. The company will lease an additional 2,500 - 3,500 square feet beyond its current 14,800 square-

foot office space in order to expand headquarters as they continue to hire additional technical staff to service clients. This \$300,000 project is expected to create 70 positions and retain 91 jobs within the first three years of the project's initial operations.

**Pepsi-Cola General Bottlers of Ohio, Inc.**, located in the City of Toledo (Lucas County), has been awarded a 45 percent job creation tax credit for a six-year term for the expansion of its facility in the City of Toledo. The value of the tax credit is estimated at \$65,209 over the term, and the company would be required to maintain operations at the project site for 12 years. Pepsi-Cola is a production- and distribution-focused subsidiary of PepsiAmericas, Inc., which maintains operations in the United States and Europe, and employs 14,000 people worldwide. The project in Toledo includes installation of machinery and equipment. This \$12.5 million project is expected to create 25 positions within three years of the project's initial operations and retain 70 jobs for the term of the tax credit.

**Quaker Chemical Corporation**, located in the City of Middletown (Butler County), has been awarded a 55 percent tax credit for a 10-year term to expand its current facility. The value of the tax credit is estimated at \$295,489 over the term, and the company would be required to maintain operations at the project site for 20 years. Quaker was founded in 1918 and is headquartered in Conshohocken, Pennsylvania and manufactures various chemicals for the steel industry, including lubricants, corrosion prevention, and cleaners. Quaker's products, are currently used in nearly 200 steel mill applications worldwide. The company proposes to lease a 100,000 square-foot facility from the Butler County Port Authority to establish the company's largest fluids production location in the world. Ohio is in competition with all other Quaker facilities and other locations for this \$20 million project, which is expected to create 45 jobs and retain 40 positions within the first three years of the project's initial operations.

**Quality Gold, Inc.**, located in the City of Fairfield (Butler County), has been awarded a 55 percent tax credit for a five-year term to expand its warehouse and manufacturing operations. The value of the tax credit will be \$45,954 over the term, and the company is required to maintain operations at the site for 10 years. Quality Gold is one of the largest suppliers of jewelry items in the U.S. The company has an extensive inventory, distribution and fulfillment-processing center as well as a manufacturing, jewelry design and assembling operation at its existing site. The proposed project includes the construction of a 45,000 square-foot warehouse/distribution facility and an investment in new machinery and equipment. As a result of this project, Quality Gold will create 30 new, full-time jobs within three years of the project's initial operations and retain 115 existing full-time positions at the project site for the term of the tax credit. Ohio is in competition with Kentucky for this \$2.35 million project, which is expected to retain 115 positions and create 30 jobs within the first three years of the project's initial operation.

**Red Roof Inns, Inc.**, to be located in the City of Columbus (Franklin County), has been awarded a 50 percent tax credit for a five-year term to establish a new headquarters operation. The value of the tax credit is estimated at \$550,481 over the term, and the company would be required to maintain operations at the project site for 10 years. Red Roof Inns was incorporated by founder James R. Trueman in 1972 and the company's first Inn opened in Columbus in 1973. Today, Red Roof Inns has more than 350 locations, serves millions of guests each year, and employs more than 6,000 people. Red Roof Inns expects to continue to grow through franchising, acquisitions, and new development. The company proposes to lease a 20,000-square-foot facility and acquire machinery and equipment and furniture and fixtures. The facility will be utilized for administrative and headquarters functions. Ohio is in competition with Texas for this more than \$200,000 project, which is expected to create 80 jobs and retain 37 positions within the first three years of the project's initial operations.

**Restoration Hardware, Inc. (Restoration Hardware)**, located in the Village of West Jefferson (Madison County), has been awarded a 50 percent tax credit for a seven year term to establish a new distribution facility. The value of the tax credit is estimated at \$1,099,830 over the term, and

the company would be required to maintain operations at the project site for 14 years. Established in 1980, Restoration Hardware is a specialty retailer of hardware, bath ware, furniture, lighting, textiles, accessories, and gifts. In addition to its 103 retail stores, Restoration Hardware operates a direct-to-customer direct sales channel, which includes both catalog and Internet, and a wholly owned furniture manufacturer. The company proposes to invest in distribution machinery and information technology equipment, and construct an 800,000 square-foot distribution facility that will provide warehousing and distribution support to Restoration Hardware's retail locations and customer direct-sales throughout the U.S. Ohio is in competition with Kentucky and Georgia for this \$17 million project, which is expected to create 350 jobs within the first three years of the project's initial operations.

**Revere Plastic Systems, LLC** (approved as Wollin Products, Inc. dba Titan Plastics Group), located in the City of Clyde (Sandusky County), has been awarded a 60 percent tax credit for a 10-year term to expand its manufacturing and distribution operation. The value of the tax credit would be \$518,630 over the term, and the company would be required to maintain operations at the site for 20 years. Titan Plastics is one of the top 25 custom plastic injection molders in North America and serves a diverse set of markets that include: home appliances, automotive, business equipment, power equipment, and electrical/electronic controls. Ohio is in competition with Michigan, Canada, and Mexico for this more than \$16.245 million project, which is expected to retain 343 positions and create 100 jobs within the first three years of the project's initial operation.

**RGH Enterprises, dba Edgepark Surgical**, located in the City of Twinsburg (Summit County), will receive a 55 percent tax credit for an eight-year term to expand operations. The company plans to expand its existing workforce to provide the company with the capacity to meet its current needs and position the firm for future growth. RGH is a distributor of medical-care supplies with primary product lines including ostomy, diabetic, woundcare, incontinence, light durable medical equipment, chiropractic, orthopedic and physical rehabilitation items. Ohio was in competition with New York, California, and Texas for this \$1 million project, which is expected to create 75 jobs within the first three years of operation and retain 430.

**Riffle Machine Works, Inc.**, located in Green Township (Ross County), has been awarded a 35 percent tax credit for a seven-year term to expand its existing operations. The value of the tax credit is estimated at \$36,254 over the term, and the company would be required to maintain operations at the project site for 14 years. Riffle is a family owned company that is headquartered in Green Township near Chillicothe was originally established in 1980 to provide machined and welded parts to local companies. In 1997, the company was awarded its first assembly job from Kenworth Truck Company and today, Riffle provides sub-assemblies, part sequencing, kitting, and assemblies to Kenworth, as well as customers such as Faurecia and Mitsui. The company proposes to construct a 50,000 square-foot building and invest in new machinery and equipment, and on-site infrastructure improvements. Riffle will expand in order to increase operating capacity to more effectively compete for existing Kenworth contracts as the company seeks to become a Tier-I supplier to the trucking Original Equipment Manufacturer. This more than \$1.565 million project is expected to create 25 jobs and retain 28 positions within the first three years of the project's initial operations.

**Rumpke of Ohio, Inc.**, to be located in Hamilton Township (Lawrence County), has been awarded a 55 percent tax credit for an eight-year term to relocate and expand its regional sales, recycling, and transfer facility, currently located in Ashland, Kentucky. The value of the tax credit will be \$127,210 over the term, and the company would be required to maintain operations at the site for 16 years. The Rumpke Corporation is a leader in the field of recycling and maintains strong sales in recyclable materials such as plastics, metals, papers, and glass. To accommodate the company's relocation and expansion needs, the Lawrence Country Port Authority, in conjunction with Rumpke, plans to construct a 38,000 square-foot multipurpose industrial metal facility and purchase machinery and equipment. Ohio was in competition with Kentucky for this more than \$4.285 million project, which is expected to create 41 jobs within the first three years of the project's initial operation in this county, located in Ohio's Appalachian region.

**Sedgwick Claims Management Services, Inc.**, to be located in the Cities of Dublin and Hilliard (Franklin County), has been awarded a 40 percent credit for a five-year term to expand operations. The value of the tax credit is estimated at \$326,724 over the term, and the company would be required to maintain operations at the project site for 10 years. Headquartered in Tennessee, Sedgwick is the leading North American provider of innovative claims and productivity management solutions. Sedgwick delivers claims administration, managed care, program management, risk consulting, and related services to clients through the expertise of 6,000 colleagues in more than 100 offices in the United States and Canada. The company specializes in workers compensation disability, Family and Medical Leave Act and other employee absence and general, automobile, and professional liability claims services. The company proposes to invest in computer systems and furniture and fixtures to expand its claims operations. The additional office space in Hilliard will be utilized for claims administration and related services. Ohio is in competition with Virginia for this \$1.282 million project, which is expected to create 157 positions and retain 397 jobs within the first three years of the project's initial operations.

**SelectTech Services Corporation**, located in the City of Springfield (Clark County), has been awarded a 50 percent job creation tax credit for a six-year term for the expansion of its facility in the City of Springfield. The value of the tax credit is estimated at \$464,724 over the term, and the company would be required to maintain operations at the project site for 10 years. Established in 1982, SelectTech provides engineering support, test and evaluation, and information technology services to the aerospace defense industries. Based in Centerville, the company currently employs 130 people servicing the Wright Patterson Air Force Base. The project in Springfield includes using the county airport for demonstration, testing, and delivery of communication products. This \$4.2 million project is expected to create 100 positions within three years of the project's initial operations.

**Sharon Companies, Ltd.**, The, to be located in the City of Akron (Summit County) has been awarded a 35 percent tax credit for a eight-year term to consolidate operations and expand its headquarters and distribution facility. The value of the tax credit would be \$292,697 over the term, and the company would be required to maintain operations at the project site for 12 years. Sharon Stairs and its divisions specialize in architectural metal products designed, engineered and manufactured for steel stair and rail systems. The company is currently engaged in determining the optimum location for a single, consolidated fabrication and office facility to meet the future needs of the company. The company proposes to make a fixed-asset investment of at least \$1.07 million, including \$75,000 for leasehold improvements and \$1 million in machinery and equipment. The company would lease 172,000 square feet of the 900,000 square-foot Lockheed Martin facility located in Akron. This \$1.075 million project is expected to create 87 jobs and retain 94 positions within the first three years of the project's initial operations.

**Smucker Bakery Manufacturing, Inc.** has been awarded a 40 percent job creation tax credit for a six-year term in support of the expansion of its food production facility in the City of Toledo (Lucas County). The value of the tax credit is estimated at \$75,711 over the term, and the company would be required to maintain operations at the project site for 12 years. The J.M. Smucker Company, Smucker Bakery's parent company, is a leading marketer and manufacturer of a variety of branded food products including Smucker's®, Folgers®, Jif®, Crisco®, and Eagle Brand®. The company earned the number one ranking in FORTUNE Magazine's annual listing of *100 Best Companies To Work For in the United States* in 2004. The project in Toledo involves site preparation and the purchase of machinery and equipment. This \$7.6 million project is expected to create 25 positions and retain 190 jobs.

**Snap-On Business Solutions** has been awarded a 50 percent credit for a seven-year term for the company's relocation to the Village of Richfield (Summit County). The value of the tax credit is estimated at approximately \$455,772 over the term and the company would be required to maintain operations at the project site for 14 years. Snap-on, a subsidiary of Snap-on Inc. (NYSE SNA), is a global provider of enterprise data software and services focused on the Automotive,

Power Equipment and Powersports markets in addition to Performance Improvement and Warranty Solutions. Within these five product lines, Snap-on provides innovative solutions for managing enterprise data. The project in the Village of Richfield includes construction of a new building in order to increase operational capacity. Snap-on will make a fixed-asset investment of at least \$14.9 million. The company will build a 105,000 square foot facility, and the facility will be used to consolidate its headquarters operations from its current Richfield and Wooster locations. Ohio is in competition with Michigan for the nearly \$14.99 million project, creating 50 new full-time jobs and retaining 327 existing jobs within the first three years of the project's initial operations.

**Specialty Retailers, Inc. (Specialty Retailers)**, has been awarded a seven year, 35 percent tax credit to establish a distribution center in the Village of Jeffersonville (Fayette County). The cumulative value of the tax credit is estimated at \$278,395. Specialty Retailers will be required to maintain operations at the project site for a period of 14 years. Specialty Retailers is a wholly-owned subsidiary of Houston-based Stage Stores, Inc, which is a specialty department store retailer that currently operates 668 stores in 33 states (21 of which are in Ohio) under the store names Stage, Peebles, Palais Royal, and Bealls. Specialty Retailers will lease 202,000 square feet of a 380,000 square foot facility, and is expected to invest over \$12 million in machinery and equipment in preparing its new facility for operation. The facility will serve as Specialty Retailers' third distribution center, and will service the Company's Midwestern and Eastern retail locations. This \$12.026 million project is expected to create 160 full time positions within the first three years of the project's initial operations.

**SpeedFC, Inc.**, to be located in Etna Township (Licking County), has been awarded a 35 percent tax credit for a five-year term to establish a new multi-client third-party fulfillment center facility. The value of the tax credit is estimated at \$38,183 over the term, and the company would be required to maintain operations at the project site for 10 years. SpeedFC was founded in 2000 and is a provider of direct-to-consumer and business-to-business customized, integrated, and outsourced transaction management services for traditional and e-commerce companies. SpeedFC provides a suite of services including fulfillment, a call center, web development, web hosting, web marketing, and other related services. SpeedFC performs virtually all of its services with in-house personnel to provide the high degree of customization its clients require. The company proposes to lease a 160,000 square-foot facility in the Etna Corporate park and invest in leasehold and infrastructure improvements and acquire new machinery and equipment. Ohio is in competition with Kentucky, Pennsylvania, and Michigan for this \$920,000 project, which is expected to create 40 positions within the first three years of the project's initial operations.

**Sutphen Corporation**, located in German Township (Clark County), has been awarded a 45 percent credit for a five-year term to expand operations at two facilities. The value of the tax credit is estimated at \$72,495 over the term, and the company would be required to maintain operations at the project sites for 10 years. Sutphen was founded in 1890 and the oldest fire fighting apparatus design and manufacturing company in the country. The company currently has five locations with a total of 275 employees. The company proposes to purchase new machinery and equipment, and add 20,000 square-feet to its current facility, which manufactures fire trucks and components. Ohio is in competition with Georgia, Louisiana, Tennessee, and South Carolina for this \$900,000 project, which is expected to create 30 jobs and retain 76 positions within the first three years of the project's initial operations.

**Tata America International Corporation dba TATA America**, to be located in Miami Township (Clermont County), has been awarded a 90 percent tax credit for eight-year term to locate its new North America headquarters. The value of the tax credit is estimated at \$15,499,508, over the term, and the company would be required to maintain operations at the project site for 18 years. Tata is one of the world's leading information technology companies. Through its Global Network Delivery Model™, Innovation Network, and Solution Accelerators, Tata focuses on helping global organizations address their business challenges effectively. The company is a leading provider of systems integration and outsourcing in the U.S. and Canada, and offers enterprise systems

implementation, networking, and other information technology consulting services, as well as business process outsourcing and traditional management consulting. The company focuses on keeping its clients operating at the very edge of technological possibility. The company's worldwide headquarters are located in Mumbai, India and it has facilities in Dallas, New York City, and Phoenix. Tata proposes to purchase of an existing 194,000 square-foot office building and more than 220 acres of additional property for future expansion. Tata will also invest the acquisition of new equipment and furniture and fixtures. The facility will be utilized as a North American headquarters and a development center with information technology solution delivery capability. This \$17.5 million project is expected to create 1,000 positions within the first three years of the project's initial operations.

**Technoform Glass Insulation North American, LLC**, to be located in the City of Twinsburg (Summit County), has been awarded a 55 percent tax credit for a five-year term to locate its first U.S. manufacturing operation. The value of the tax credit would be \$102,408 over the term and the company would be required to maintain operations at the site for 10 years. The company is a subsidiary of Technoform Caprano und Brunnhofer GmbH Co. KG, the holding and parent company of the Technoform group of companies, headquartered in Kassel, Germany. Technoform's business unit and the product line located in North America is Technoform Glass Insulation, a producer of new-technology insulated glass spacers. Technoform anticipates that its product will achieve substantial growth within three to five years due to global changes in thermal codes, and therefore must establish a North American manufacturing operation to meet anticipated future demand for its product. Northeastern Ohio and Northeastern Tennessee are possible locations for Technoform's new manufacturing operation, as both areas can serve 80 percent of its current and potential customers that are located within a two-day drive. If located in Ohio, this \$3.2 million project is expected to retain eight positions and create 28 new jobs within the first three years of the projects initial operation.

**TH Plastics, Inc.** has been awarded a 45 percent job creation tax credit for a seven-year term in support of the company's new location in the City of Findlay (Hancock County). The value of the tax credit is estimated at \$188,581 over the term, and the company would be required to maintain operations at the project site for 14 years. TH Plastics's primary role is taking injection molding of custom thermosets and thermoplastics product from the initial design phase, all of the way to production. In addition, the company is involved with insert molding, welding, pad printing, hot stamping, and laser etching. This \$3.064 million project is expected to create 85 positions.

**Think-A-Move, Ltd.**, located in the City of Beachwood (Cuyahoga County), has been awarded a 55 percent tax credit for a five-year term to expand its existing facility. The value of the tax credit is estimated at \$142,942 over the term, and the company would be required to maintain operations at the project site for 10 years. Think-A-Move is a privately-held research and development firm that uses advanced mathematics, programming and engineering to create new commercial technologies. The company is currently developing human-device or human-machine interface technologies based on its proprietary Think-A-Move technology platform. This technology takes advantage of the human ear's ability to act as an output device, and serves as the platform for the company's licensable technologies. Think-A-Move's startup funding came from private investors and grants from institutions such as the National Institute of Health and the U.S. Army. The company proposes to invest \$90,000 in machinery and equipment and \$10,000 in leasehold renovations and expand to 4,200 square feet of space at its existing location. Ohio is in competition with Massachusetts for this \$100,000 project, which is expected to create 21 jobs and retain eight positions within the first three years of the project's initial operations.

**Thirty One Gifts LLC** has been awarded a 45 percent job creation tax credit for a six-year term for the creation of 75 new full time jobs and retention of eight positions as result of the company's expansion in the Village of Johnstown (Licking County). The value of the tax credit is estimated at \$114,101 over the term, and the company would be required to maintain operations at the project site for 12 years. Founded in 2003, Thirty One Gifts is a direct selling business with more-than

6,000 sales consultants across the United States. The \$4.396 million project includes building improvements, on-site infrastructure upgrades, and land acquisition.

**Time Warner Cable, Inc. (Now Time Warner Entertainment Company, LP)**, located in the City of Columbus (Franklin County), has been awarded a 65 percent tax credit for an eight-year term to expand its regional headquarters operation. The value of the tax credit will be more than \$1 million over the term, and the company is required to maintain operations at the site for 16 years. Time Warner is a division of TWX (NYSE) and was formed in 1989 through the merger of Time Inc.'s cable television company, American Television and Communications Corporation and Warner Cable, a division of Warner Communications. The company offers a variety of cable, Internet and telephone services to more than 10.9 million U.S. customers. The proposed project is in part instigated from the company's acquisition of 200,000 Ohio customers from Adelphia Cable. The expansion of all functions, including administrative support, to accommodate the new customers will include the construction of a 320,000 square-foot facility, in two phases, at the Gowdy Field landfill site in Columbus. Ohio is in competition with North Carolina for this \$20 million project, which is expected to retain 450 positions and to create 153 jobs within the first three years of the project's initial operation.

**Transeo Global Vehicle Solutions LLC**, to be located in the Village of New Carlisle (Clark County), has been awarded a 25 percent credit for a five-year term to establish operations. The value of the tax credit is estimated at \$49,389 over the term, and the company would be required to maintain operations at the project site for 10 years. Incorporated in 2003, Transeo GVS derives its revenue from engineering, consulting, specialty vehicle engineering, and manufacturing. The company offers a range of enterprise-wide solutions in the specialty automotive industry, including design, prototyping, and testing. Transeo GVS is 70-percent owned by Monomoy Capital Partners and 30-percent owned by Redwood Holdings Company LLC. Its partners include the Ford Motor Company, General Motors Corporation, Daimler AG, and AM General LLC. The company proposes to relocate from Huber Heights (Montgomery County) to a location in the Village of New Carlisle. Transeo GVS will invest in new machinery and equipment and leasehold improvements to a 45,000 or larger square-foot facility that will be used for manufacturing, administration, headquarters, and distribution. Ohio is in competition with Indiana for this \$159,200 project, which is expected to create 34 positions and retain 35 jobs within the first three years of the project's initial operations. Turbine Standard, LTD. has been awarded a 55 percent job creation tax credit for a seven-year term in support of the company's expansion project in Lucas County. The value of the tax credit is estimated at \$208,792 over the term, and the company would be required to maintain operations at the project site for 14 years. Turbine is a provider of maintenance services for Honeywell turboprop aircraft engines, offering engine repair, overhaul, field repair, and testing for a wide range of domestic and international customers. Turbine plans to expand its current facility and lease another to conduct maintenance and avionics services for all aircraft in the business jet category. This \$675,000 project is expected to create 35 positions and retain 17 jobs.

**Turning Technologies, LLC**, located in the City of Youngstown (Mahoning County), has been awarded a 35 percent credit for a six-year term to expand operations. The value of the tax credit is estimated at \$131,268 over the term, and the company would be required to maintain operations at the project site for 12 years. Turning was formed in 2002 with the vision of making audience response technology widely available to the educational and professional markets. The company's TurningPoint software was developed to work seamlessly with Microsoft PowerPoint. The company proposes to invest in technology tools and software and expand its current operating space in the Taft Technology Center to continue to house headquarters and research and development operations. Ohio is in competition with California and Oregon for this \$2 million project, which is expected to create 50 positions and retain 99 jobs within the first three years of the project's initial operations.

**U.S. Corrugated, Inc.**, to be located in the City of Lancaster (Fairfield County), has been awarded a 55 percent credit for a five-year term to establish a new facility. The value of the tax credit is estimated at \$295,839 over the term, and the company would be required to maintain operations

at the project site for 10 years. U.S. Corrugated is a corrugated packaging manufacturer that was formed in August 2006 when its parent company acquired Linpac, Inc., which was comprised of a paper mill and five corrugated packaging plants in the southern United States. Shortly thereafter, the company further expanded following the acquisition of eight Longview Fiber locations, which increased the company's sales from \$223 million to \$420 million and employment from 500 to 1000. The company proposes to invest in new machinery and equipment and construction a new 300,000 square-foot facility that will be used to manufacture corrugated boxes. Ohio is in competition with Pennsylvania for this \$15.5 million project, which is expected to create 110 positions within the first three years of the project's initial operations.

**UPS Supply Chain Solutions, Inc.**, to be located in the City of Middleburg Heights, Cuyahoga County, has been awarded a 60 percent tax credit for a seven-year term to expand operations. The value of the tax credit will be \$553,777 over the term, and the company is required to maintain operations at the project site for 14 years. UPS is a global company that manages the flow of goods, funds and information in more than 200 countries and territories worldwide. The company proposes to expand its central region processing center for the international brokerage operations of UPS. Ohio is in competition with existing operations in other states for this \$358,000 project, which is expected to retain 204 positions and create 160 jobs within the first three years of the project's initial operation.

**ValueCare Pharmacy, LLC**, located in the City of Brecksville (Cuyahoga County), has been awarded a 45 percent tax credit for a five-year term to establish a closed-door pharmacy operation. The value of the tax credit is estimated at \$342,236 over the term, and the company would be required to maintain operations at the project site for 10 years. ValueCare will be an institutional pharmacy and is being formed to provide traditional institutional pharmacy services to various types of skilled nursing facilities. Institutional pharmacies are specially licensed and designed pharmacy dispensing operations that serve the needs of patients in various types of skilled nursing facilities. ValueCare will replace a current Kentucky-based national pharmacy vendor resulting in improved service to ValueCare's Ohio customers. ValueCare will then expand its operations to serve other customers both inside and outside Ohio. The company proposes to lease and renovate an existing 14,000 square-foot building and invest in new machinery and equipment. The facility will be used as a closed-door pharmacy to service ValueCare's client base. This \$518,300 project is expected to create 46 jobs within the first three years of the project's initial operations.

**Victoria Fire & Casualty Insurance Company (approved as THI Holdings (Delaware), Inc.)**, located in the Village of Highland Hills and the Village of Mayfield Heights (Cuyahoga County), has been awarded a 60 percent tax credit for a 10-year term to expand its headquarters operation. The value of the tax credit will be more than \$3 million over the term, and the company is required to maintain operations at the project site for 20 years. THI, a subsidiary of Nationwide Mutual Insurance Company, is headquartered in Mayfield Heights and is a specialty products insurance carrier. The growing company must expand its operations, and is considering several locations and conducting a cost/benefit analysis of each site before a final decision is made. The proposed project includes the lease of a facility where THI could relocate existing positions from its Mayfield Heights headquarters. This expansion would include growth in the claims department and other operational functions, specifically focused on customer service, claims processing and other operational or administrative functions. Ohio is in competition with Michigan, Texas, and Arizona for this \$658,860 project, which is expected to retain and/or maintain 312 positions and create 130 jobs within the first three years of the project's initial operation.

**ViewRay Incorporated**, to be located in Oakwood Village (Cuyahoga County), has been awarded a 45 percent credit for a five-year term to establish a new facility. The value of the tax credit is estimated at \$537,431 over the term, and the company will be required to maintain operations at the project site for 10 years. ViewRay was founded in 2004 in Gainesville, Florida and currently employs 10 people. This project is backed by "blue-chip" biomedical venture capital investment companies including OrbiMed Advisors, LLC; Fidelity Biosciences; Kearny Venture Partners; and

**Aisling Capital.** The company has recently raised \$25 million in Round B financing. The company will invest in machinery and equipment and lease an existing 40,000 square-foot facility for the company's world headquarters for the assembly and testing of the Renaissance(TM) System 1000, ViewRay's Magnetic Resonance Imaging Guided Radiation Therapy technology. ViewRay will contribute to the growing biomedical cluster in Northeast Ohio by partnering with local imaging companies and leading Cancer Centers. Ohio is in competition with California, Georgia, and Massachusetts for this \$14.5 million project, which is expected to create 93 positions within the first three years of the project's initial operations.

**Westhaven Services Co., LLC & Omnicare, Inc.,** to be located in the City of Maumee (Lucas County) and Perrysburg Township (Wood County), has been awarded a 50 percent credit for a seven-year term to consolidate operations. The value of the tax credit is estimated at \$791,664 over the term, and the company would be required to maintain operations at the project site for 14 years. Westhaven, based in Perrysburg Township, is a wholly owned subsidiary of Omnicare, which provides professional pharmacy services to long-term care facilities in the Northwest Ohio area. Omnicare is headquartered in Covington, Kentucky, and is a leading provider of pharmaceutical care for the elderly. Omnicare serves residents in long-term care facilities and other chronic care settings, including approximately 1.5 million beds in 47 states, the District of Columbia, and Canada. Omnicare currently employs approximately 17,900 throughout the United States. The company proposes to consolidate billing, collections, medical records, and clinical program support into a regional hub to generate an anticipated \$8 million annually due to increased efficiency. Should the Ohio site be selected, Omnicare will lease a 16,000 square-foot Billing Center in Maumee and expand at its existing 45,000 square-foot Perrysburg location to facilitate the additional space required for the centralized hub operation. The investment would include new building construction and renovation, leasehold improvements, and the acquisition of machinery and equipment. Ohio is in competition with Michigan for this \$3.558 million project, which is expected to create 450 positions and retain 250 jobs within the first three years of the project's initial operations.

**Whirlpool Corporation,** located in the City of Clyde (Sandusky County), has been awarded a 75 percent tax credit for a 15-year term to expand its home appliances facility. The value of the tax credit is estimated at \$6,393,205 over the term, and the company would be required to maintain operations at the project site for 30 years. Whirlpool is a leading global manufacturer and marketer of major home appliances that manufactures in 12 countries under nine principal brand names and markets products to distributors and retailers in more than 170 countries. On March 31, 2006 Whirlpool completed the acquisition of Maytag Corporation. The proposed project includes the consolidation of the former Maytag facilities in the states of Iowa, Illinois and Arkansas to the Whirlpool facility in Clyde. The company will invest at least \$31.77 million in machinery and equipment to update its Clyde facility, which will be utilized to manufacture home appliances and perform research and development of new laundry care technology. The project is expected to create 553 jobs and retain 3,098 within the first three years of the project's initial operations.

**Whirlpool Corporation,** located in the City of Findlay (Hancock County), has been awarded a 50 percent job creation tax credit for a seven-year term for its expansion. The value of the tax credit is estimated at \$907,000 over the term, and the company would be required to maintain operations at the project site for 14 years. Whirlpool is the world's largest manufacturer and marketer of major household appliances and has operated its Findlay facility for more than 40 years. The project includes improvements to on-site infrastructure and the purchase of machinery and equipment. This \$10.981 million project is expected to create 263 positions and retain 1,698 jobs.

**Xunlight Corporation,** located in the City of Toledo (Lucas County), has been awarded a 55 percent credit for a seven year term to expand its current facility. The value of the tax credit is estimated at \$1,015,329 over the term, and the company would be required to maintain operations at the project site for 14 years. Xunlight was founded in 2002 to commercialize technologies related to innovative and effective photovoltaic generation. Originally known as MWOE Solar, the company focuses

on thin film photovoltaic (PV) manufacturing and applications and plans to incorporate next generation PV technologies developed by the company and its academic partner, the Thin Film Silicon Photovoltaic Laboratory at the University of Toledo. The company proposes to expand its current facility and purchase new machinery and equipment to support the increased production of the company's thin-film silicon-based photovoltaic products and manufacturing equipment for high-throughput production of flexible and lightweight photovoltaic modules. The facility will be utilized for research and development and manufacturing of PV technologies, including two, 10, 40, and 100 megawatt lines. Ohio is in competition with several other states and countries for this \$5 million project, which is expected to create 280 jobs and retain 32 positions within the first three years of the project's initial operations.

**Zyvex Performance Materials**, to be located in the City of Columbus (Franklin County), has been awarded a 60 percent tax credit for five-year term to expand its headquarters and research and development operations. The value of the tax credit is estimated at \$856,745 over the term, and the company would be required to maintain operations at the project site for 10 years. Zyvex is a spin-off of Zyvex Corporation, which was founded in 1997. Zyvex is the leading nano-technology company providing tools and instrumentation to the semi-conductor and research and education markets. In addition to being the first commercial molecular nanotechnology company, Zyvex was the first to provide carbon nanotube (CNT) powered products to the marketplace. Zyvex's performance materials serve customers in the aerospace, defense, automotive, and energy markets while its patent technology has been incorporated with customers who are sporting goods manufacturers. The company proposes to relocate and expand its headquarters and research and development operations with investments of \$500,000 leasehold improvements, \$2.3 million in machinery and equipment, and \$200,000 for furniture and fixtures. The facility will be used for administration, research and development and limited manufacturing. Ohio is in competition with South Dakota and Texas for this \$3 million project, which is expected to create 97 jobs within the first three years of the project's initial operations.

## Section D: Status of Projects with Executed Job Creation Tax Credit Agreements

---

Section D addresses the status of projects that have executed tax credit agreements with the Tax Credit Authority. Information provided pertains to all approved projects with tax credit agreements executed from 1993 through 2009.

The table denotes committed job, wage, and fixed-asset investment commitments, the tax credit rate and term contained in taxpayers' tax credit agreements, and the current status of each project (as of May 28, 2010). The following categories are included:

- **Approved:** The project is filing in-term annual reports and receiving benefit.
- **Reporting:** The project no longer receives benefit, but is being required to report for the post term period.
- **Certification:** The project has completed all necessary reporting.
- **Termination Without Clawback:** The project was removed from the program without financial recourse.
- **Termination With Clawback:** The project was removed from the program with financial recourse.

The table also presents annual performance of each project. This performance data is obtained from the most recent submitted annual report. While the Ohio Department of Development makes its best effort to audit all reports swiftly and efficiently, some of the data displayed is subject to change upon final audit. Furthermore, some projects have not submitted an annual report due to timing related to their start date.

Data derives from queries run within the Ohio Department of Development's project tracking software. Given the software's operation, note that execution dates indicated for each of the projects may represent any subsequent amendments executed between the parties. Note the location underneath the taxpayer identifies the location the headquarters of the respective taxpayer.

The data presented in this table shows the success of the Job Creation Tax Credit in creating and retaining jobs. The program has been successful in creating over 118,000 jobs and retaining another 198,000. Furthermore, it has leveraged over \$23 billion in fixed asset investment.

Information appearing in Figure 15, denotes the distribution of most recent jobs reported by region with executed agreement. Region 1 (Central Ohio region) and has seen the largest job growth, followed by the Cincinnati Metropolitan region (region 5), Cleveland Metropolitan region (Region 8).

**Figure 15: Most Recent Reported Job Creation by Region**

## Section D – Table: Status of Job Creation Tax Credit Projects with Executed Agreements

No.	Beneficiary	City	Date of Approval	Date of Most Recent Execution	Program Phase	Project Commitment				Original Benefit		Most Recent Report			Current Benefit	
						Jobs to Create	Jobs to Retain	Average Wage	Fixed Assets Investment	Rate	Term	Created Total	Retained Jobs	Fixed Assets Investment	Rate	Term

## **Section E: Enforcement Actions Taken by the Tax Credit Authority in Calendar Year 2009 against Projects Approved between Calendar Year 1993 to 2009**

---

This section contains information regarding enforcement actions taken by the Tax Credit Authority in calendar year 2009 against taxpayers that did not meet the requirements specified in its Job Creation Tax Credit agreement. The information provided pertains to all approved projects with tax credit agreements between the years 1993 through 2009.

The Tax Credit Authority may consider four types of enforcement action for any taxpayer failing to comply with its Job Creation Tax Credit agreement: (1) cancel the project before execution of the agreement, (2) reduce the rate and term of the tax credit, (3) terminate the project without a clawback, or (4) terminate the project and administer a clawback requiring the beneficiary to refund a certain percentage of tax credit that it received through the Job Creation Tax Credit program.

Each action may be used depending on the non-compliance circumstance. Cancellations apply to projects without an executed contract if the taxpayer wishes to withdraw from the program or falls below the minimum eligibility requirements. If the taxpayer has an executed contract, the project may either be terminated without clawback or have its benefit reduced depending on the circumstance. The final action, termination with clawback is taken against companies who cease operations in Ohio at their designated project site.

Pursuant to Ohio Revised Code § 122.17 (K), when a taxpayer ceases operation at its defined project location, the Tax Credit Authority will initiate a three step clawback process. This first step is to send notice to the taxpayer of pending termination with clawback. After the taxpayer has been notified a "First Reading" occurs, which requires the Tax Credit Authority, at its monthly meeting, to review the project with particular attention to (1) the effect of market conditions on the taxpayer's project, and (2) whether the taxpayer continues to maintain other operations in this state. The third procedural step, known as the "Second Reading", requires the Tax Credit Authority, at a subsequent meeting, to make a final determination on a clawback percentage to be applied to certificates issued to the taxpayer.

The table denotes the beneficiary of the Job Creation Tax Credit, city of the project, date Job Creation Tax Credit was approved, date that enforcement action was taken in calendar year 2009, jobs created, jobs retained, average wage for new jobs created, fixed asset investment for to the project, original rate and term of the Job Creation Tax Credit, and current rate and term of the Job Creation Tax Credit.

In 2009, the Tax Credit Authority implemented 182 enforcement actions against taxpayers participating in the Job Creation Tax Credit program. 60 projects were canceled, 80 projects had a reduction in either the rate, term, or both the rate and term of the Job Creation Tax Credit tax credit, 38 projects were terminated without a clawback, and 4 projects were terminated with a clawback. Due to the current economic conditions, it is expected that there will continue to be a growing trend of enforcement actions taken by the Tax Credit Authority. This was an increase in enforcement actions from calendar year 2008.

Data were obtained from queries run within the project tracking software used for this program.

**Section E - Table: Tax Credit Authority Enforcement Actions in 2009**
